§ 33-909. Public school facilities cooperative funding program -- Fund created

(1) In fulfillment of the constitutional requirement to provide a general, uniform and thorough system of public, free common schools, it is the intent of the state of Idaho to advance its responsibility for providing a safe environment conducive to learning by providing a public school facilities funding program to enable qualifying school districts to address unsafe facilities identified as unsafe under the standards of the Idaho uniform school building safety act.

(2) Participation in the program, for the purpose of obtaining state financial support to abate identified school building safety hazards, requires submission of an application to the public school facilities cooperative funding program panel. Application can be made by:

(a) Any school district that has failed to approve at least one (1) or more bond levies for the repair, renovation or replacement of existing unsafe facilities, within the two (2) year period immediately preceding submission of the application; or

(b) The administrator of the division of building safety, for a school district that has failed to address identified unsafe facilities as provided in chapter 80, title 39, Idaho Code.

(3) There is hereby created within the office of the state board of education the Idaho public school facilities cooperative funding program panel, hereafter referred to as the panel. The panel shall consist of the administrator of the division of building safety, the administrator of the division of public works and the executive director of the state board of education, or a designee appointed by a panel member. It shall be the duty of the panel to consider all applications made to it, and to either approve, modify or reject an application based on the most economical solution to the problem, as analyzed within a projected twenty (20) year time frame.

(4) The application shall contain the following information:

(a) The identified school building safety hazards and such other information necessary to document the deficiencies;

(b) The school district's plan for abating the defects, including costs and sources and amounts of revenue available to the school district;

(c) The market value for assessment purposes of the school district; and

(d) A detailed accounting of all bond and plant facility levies of the school district and the revenues raised by such levies.

For applications initiated by the administrator of the division of building safety pursuant to subsection (2)(b) of this section, the school district shall provide the information required in this subsection (4) if such information is not available to the administrator.
(5) (a) If the panel determines that it requires additional plans and information, it may authorize the expenditure of up to one hundred fifty thousand dollars ($150,000) per application from the public school facilities cooperative fund for the procurement thereof. In considering an application, the panel shall determine whether the plan as proposed is acceptable, or is acceptable with modifications as determined by the panel, or should be rejected. If the application is approved or approved with modifications, any expenditures authorized by the panel pursuant to this subsection shall be added to the project. The panel shall notify the applicant of its decision, in writing, within ninety (90) days of receiving the application. At the same time the panel notifies the applicant, the panel shall send notification of an approved application or a modified application to the state board of education, along with the panel's specifications for the project and its cost.

(b) The panel may, upon the recommendation of the district supervisor, authorize modifications to the approved plan at any time prior to the completion of the project, giving consideration to the interests of the school district, the students and the electors in its determination. Such modification may alter the scope of work or terminate the approved plan. All modifications must meet the standards as outlined in this section.

(6) If an application received from a school district is accepted or modified by the panel, the local board of trustees of that school district, at the next election held pursuant to section 34-106, Idaho Code, shall submit the question to the qualified electors of the school district of whether to approve a bond in the amount of the cost of the project as approved by the panel.

(7) Within thirty-five (35) calendar days of receiving notification from the panel that an application submitted by the administrator of the division of building safety pursuant to subsection (2)(b) of this section has been approved or modified by the panel, or within thirty-five (35) calendar days of receiving certification from the panel that the question submitted to the electorate pursuant to subsection (6) of this section was not approved in the election, the state board of education shall appoint a district supervisor for interim state supervision of the local school district. The district supervisor shall be responsible for ensuring that the project, as approved by the panel, is completed and shall regularly report to the panel in a manner as determined by the panel upon approval of the project. The district supervisor shall also have the authority granted to said position by the provisions of section 6-2212, Idaho Code. A district supervisor's term of service shall continue for the duration of the project, and such person appointed as a district supervisor shall serve at the pleasure of the state board of education.

(8) The abatement of unsafe public school facilities through the public school facilities cooperative funding program shall be performed exclusively in accordance with the regular permitting, plan review and inspection requirements of the division of building safety. The state fire marshal shall have exclusive authority to perform the powers and duties prescribed in section 41-254, Idaho Code, for such facilities while the unsafe condition is being abated and under the jurisdiction of the panel-appointed district supervisor. The Idaho building code board shall function as a board of appeals for the division of building safety for such construction in accordance with the provisions of section 39-4107, Idaho Code. Upon successful completion of the construction in accordance with applicable building code, a certificate of occupancy shall be issued by the administrator of the division of building safety. Upon issuance of a certificate of
occupancy, responsibility for ensuring the safety of the facility or portion thereof so constructed will then be returned to the school district and responsibility for ensuring subsequent compliance with building codes returned to the authority having jurisdiction.

(9) Upon approval of an application or a modified application submitted by the administrator of the division of building safety pursuant to subsection (2)(b) of this section, or upon receipt of certification from the county that the question submitted to the electorate pursuant to subsection (6) of this section was not approved in the election, the panel shall certify the cost of the project, as approved by the panel, to the state department of education.

(a) The total cost of the project shall initially be paid by the state from the public school facilities cooperative fund. If the district supervisor determines that the amount approved by the panel is insufficient to complete the project in a satisfactory manner, the panel may request a legislative appropriation of additional moneys from the public school facilities cooperative fund. If such an appropriation is approved, these additional moneys shall be added to the cost of the project.

(b) The district’s share of costs shall be based upon actual funds expended. The district's share of costs that may be repaid through the levy provisions of this section shall not exceed the district's share of bond payment costs as calculated for the bond levy equalization support program in the fiscal year in which the application is made. Interest shall be charged on the unpaid balance of the district's share of costs, as such balance exists at the end of each fiscal year, at the rate of interest earned by the state treasurer on the investment of idle funds in that fiscal year.

(c) It shall be the responsibility of the state department of education to calculate a state-authorized plant facilities levy rate in accordance with the provisions of subsection (10) of this section, which, when imposed over a maximum period not to exceed twenty (20) years, may yield the revenues needed to repay the school district's share of the cost of the project.

(d) The levy rate calculated by the state department of education shall be certified by the department to the county or counties wherein the boundaries of the school district are contained, for assessment of the levy and collection of the revenues by such county or counties in the manner provided by law. The revenues collected by imposition of the state-authorized plant facilities levy shall be remitted to the state treasurer for deposit to the public school facilities cooperative fund.

(10) The annual state-authorized plant facilities levy rate shall be limited to the greater of:

(a) The difference between the school district's combined bond and plant facilities levy rates, and the statewide average bond and plant facility levy rates; or

(b) The statewide average plant facility levy rate.

The initial levy rate so calculated shall be established as the minimum levy rate that shall be imposed for the amount of time required to reimburse the state for the school district's share of the project cost, but not to exceed twenty (20) years, even if this period would not provide reimbursement of the entire amount of the school district's share of the cost.
of the project. The state department of education is authorized and directed to recalculate
the levy rate on an annual basis, and is authorized to increase or decrease the levy rate
according to the scheduled payback, but the levy rate shall not be less than the levy rate
initially imposed. Provided however, if the levy rate calculated is estimated to raise more
money than would be necessary to repay the district's share of costs, then the state
department of education shall certify to the county or counties wherein the boundaries of
the school district are contained, the moneys necessary to repay the district's share of
costs.

(11) There is hereby created in the state treasury a public school facilities
cooperative fund. The fund shall contain such moneys as may be directed pursuant to
appropriation. Moneys in the fund shall be used exclusively to finance the public school
facilities cooperative funding program, and are hereby continuously appropriated for such
purposes as authorized by this section. Moneys in the fund shall be invested by the state
treasurer in the same manner as provided under section 67-1210, Idaho Code, with
respect to other idle moneys in the state treasury. Interest earned on the investments shall
be credited to the school district building account.

TITLE 33. EDUCATION
CHAPTER 16. COURSES OF INSTRUCTION

§ 33-1613. Safe public school facilities required

(1) Definition. As used in this section, "public school facilities" means the
physical plant of improved or unimproved real property owned or operated by a school
district, a charter school, or a school for children in any grades kindergarten through
twelve (12) that is operated by the state of Idaho, including school buildings,
administration buildings, playgrounds, athletic fields, etc., used by schoolchildren or
school personnel in the normal course of providing a general, uniform and thorough
system of public, free common schools, but does not include areas, buildings or parts of
buildings closed from or not used in the normal course of providing a general, uniform
and thorough system of public, free common schools. The aspects of a safe environment
conducive to learning as provided by section 33-1612, Idaho Code, that pertain to the
physical plant used to provide a general, uniform and thorough system of public, free
common schools are hereby defined as those necessary to comply with the safety and
health requirements set forth in this section.

(2) Inspection. It is the duty of the board of trustees of every school district and
the governing body for other schools described in subsection (1) of this section at least
once in every school year to require an independent inspection of the school district's or
other entity's school facilities to determine whether those school facilities comply with
codes addressing safety and health standards for facilities, including electrical, plumbing,
mechanical, elevator, fire safety, boiler safety, life safety, structural, snow loading, and
sanitary codes, adopted by or pursuant to the Idaho uniform school building safety act,
chapter 80, title 39, Idaho Code, adopted by the state fire marshal, adopted by generally
applicable local ordinances, or adopted by rule of the state board of education and
applicable to school facilities. The inspection shall be done pursuant to chapter 80, title 39, Idaho Code, or by an independent inspector professionally qualified to conduct inspections under the applicable code. The results of the inspection shall be presented to the administrator of the division of building safety and the board of trustees or other governing body for its review and consideration.

(3) Abatement required -- Reporting. The board of trustees or other governing body shall require that the unsafe or unhealthy conditions be abated and shall instruct the school district's or other entity's personnel to take necessary steps to abate unsafe or unhealthy conditions. The board of trustees or other governing body must issue a report in the same school year in which the inspections are made declaring whether any unsafe or unhealthy conditions identified have not been abated. The state board of education shall, by rule, provide for uniform reporting of unsafe and unhealthy conditions and for uniform reporting of abatement or absence of abatement of unsafe and unhealthy conditions. Copies of such reports shall be provided to the administrator of the division of building safety and the board of trustees of the school district.

(4) Costs of and plan of abatement. If the school district or other entity described in subsection (1) of this section can abate all unsafe or unhealthy conditions identified with the funds available to the school district or other entity, it shall do so, and it need not separately account for the costs of abatement nor segregate funds expended for abatement. If the school district or other entity cannot abate all unsafe or unhealthy conditions identified with the funds available to it, the board of trustees or other governing body shall direct that a plan of abatement be prepared. The plan of abatement shall provide a timetable that shall begin no later than the following school year and that shall provide for abatement with all deliberate speed of unsafe and unhealthy conditions identified. The abatement plan shall be submitted to the administrator of the division of building safety. The school district or other entity shall immediately begin to implement its plan of abatement and must separately account for its costs of abatement of unsafe and unhealthy conditions and separately segregate funds for the abatement of unsafe and unhealthy conditions as required by subsection (5) of this section.

(5) Special provisions for implementation of plan of abatement.

(a) Notwithstanding any other provisions of law concerning expenditure of lottery moneys distributed to the school district or other entity, all lottery moneys provided to the school district or other entity for a school year in which the school district cannot abate unsafe or unhealthy conditions identified and not legally encumbered to other uses at the time and all lottery moneys for following school years shall be segregated and expended exclusively for abatement of unsafe and unhealthy conditions identified until all of the unhealthy and unsafe conditions identified are abated, provided, if the school district has obtained a loan from the safety and health revolving loan and grant fund, the provisions of section 33-1017, Idaho Code, and the conditions of the loan shall determine the use of the school district's lottery moneys during the term of the loan.

(b) If the lottery moneys referred to in paragraph (a) of this subsection will, in the board of trustees' or other governing bodies' estimation, be insufficient to abate the unsafe and unhealthy conditions identified, the plan of abatement shall identify additional sources of funds to complete the abatement of the unsafe and unhealthy conditions. The
board of trustees may choose from among the following sources, or from other sources of its own identification, but the plan of abatement must identify sufficient sources of funds for abatement.

(i) If the school district is not levying under chapter 8, title 33, Idaho Code, at the maximum levies allowed by law for levies that may be imposed by a board of trustees without an election, the board of trustees may increase any of those levies as allowed by law for the school year following the school year in which it was unable to abate unsafe or unhealthy conditions identified.

(ii) If the school district is levying under chapter 8, title 33, Idaho Code, at the maximum levies allowed by law for levies that may be imposed by the board of trustees without an election; or, if after increasing those levies to the maximum levies allowed by law for levies that may be imposed by the board of trustees without an election, there will still be insufficient funds to abate unsafe or unhealthy conditions identified, the school district, after giving notice and conducting a hearing, may declare a financial emergency and/or may apply for a loan or, if eligible, an interest grant from the safety and health revolving loan and grant fund as provided in section 33-1017, Idaho Code, to obtain funds to abate the unsafe or unhealthy conditions identified.

(iii) Upon the declaration of a financial emergency, the board of trustees shall have the power to impose a reduction in force, to freeze some or all salaries in the school district, and/or to suspend some or all contracts that may be legally suspended upon the declaration of a financial emergency; provided, that when a board of trustees declares a financial emergency, or when a declaration of a financial emergency is imposed by the state treasurer pursuant to section 33-1017, Idaho Code, and there is a reduction in force, some or all salaries are frozen, or some contracts are suspended, the payments to the school district under the foundation program of chapter 10, title 33, Idaho Code, and in particular the staff allowances under that chapter, shall not be reduced during the duration of the financial emergency as a result of a reduction in force, frozen salaries, or suspended salaries from what the staff allowance would be without the reduction in force, frozen salaries or suspended contracts.

(c) All costs of abatement for a program implementing plans of abatement under subsection (5) of this section must be separately accounted for and documented with regard to abatement of each unsafe or unhealthy condition identified. Funds obtained under section 33-1017, Idaho Code, must be used exclusively to abate unsafe or unhealthy conditions identified. Funds obtained pursuant to section 33-1017, Idaho Code, in excess of funds necessary to abate unsafe or unhealthy conditions identified must be returned as provided in section 33-1017, Idaho Code. Return of these funds shall be judicially enforceable as provided in section 33-1017, Idaho Code.
§ 39-8001. Short title

§ 39-8002. Declaration of purpose
The purpose of this act is to assure the safety of children and others who use Idaho's public schools by providing for a uniform school building safety code to apply to school buildings and by establishing procedures for achieving compliance with the code.

§ 39-8003. Scope
This act shall apply to all facilities, existing now or constructed in the future, that are owned, leased or used for educational purposes by public school districts, charter schools, or a school for children in any grades kindergarten through twelve (12) that is operated by the state of Idaho receiving state funding. The authority granted under this act shall not prohibit local governments from acting to enforce applicable building and fire codes.

§ 39-8004. Definitions
As used in this act:

1. "Administrator" means the administrator of the division of building safety or his designated representative.

2. "Day" shall mean a calendar day unless otherwise specified.

3. "Imminent safety hazard" means a condition that presents an unreasonable risk of death or serious bodily injury to occupants of a building.

4. "Licensed professional" means a person licensed by the state of Idaho as an architect or an engineer.

5. "Local government" means any city or county of this state.

6. "Serious safety hazard" means a condition that presents an unreasonable health risk or risk of injury to occupants of a building.
§ 39-8005. Idaho uniform school building safety code committee created -- Appointment -- Terms -- Quorum -- Meetings -- Compensation

There is hereby created within the office of the superintendent of public instruction the Idaho uniform school building safety code committee, hereafter referred to as the committee. The committee shall consist of eight (8) members and shall include one (1) representative from each of the following: the office of the superintendent of public instruction; the division of building safety; and the insurance industry, appointed by the department of insurance. The governor shall appoint three (3) members as follows: one (1) representative of local school boards; one (1) representative of school superintendents and a chairman, all of whom shall serve at his pleasure. The committee shall also include two (2) members of the Idaho legislature, one (1) appointed by the president pro tempore of the senate and one (1) appointed by the speaker of the house of representatives. A majority of the membership of the committee is a quorum. Upon completion of development of the Idaho uniform school safety code provided for in section 39-8006, Idaho Code, the committee shall meet at least annually to review and make any necessary revisions to the Idaho uniform school safety code. Each member of the committee shall be reimbursed for expenses as provided by section 59-509(b), Idaho Code, for each day spent in attendance at meetings of the committee.

§ 39-8006. Committee to develop Idaho uniform school building safety code -- Interim code

(1) The committee shall develop the Idaho uniform school building safety code to be adopted by rule of the administrator pursuant to section 39-8007, Idaho Code. The Idaho uniform school building safety code shall address elements of the national codes identified in section 39-4109, Idaho Code, and rule of the state board of education at IDAPA 08.02.02.130.

(2) Until the Idaho uniform school building safety code is adopted by rule pursuant to section 39-8007, Idaho Code, the national codes adopted under section 39-4109, Idaho Code, and rule of the state board of education at IDAPA 08.02.02.130 shall serve as the interim Idaho uniform school building safety code.

§ 39-8006A. Best practices maintenance plan for school buildings

The administrator of the division of building safety and the state department of education shall consult and shall draft a best practices maintenance plan for school buildings which shall be supplied to the superintendent of each school district. Based on the best practices maintenance plan, each school district shall develop a ten (10) year plan and submit it to the division of building safety for approval. Such plan shall be submitted in all years ending in zero (0) or five (5), and shall include information detailing the work completed pursuant to the previous maintenance plan and any revisions to that plan.

§ 39-8007. Powers and duties of the administrator

(1) The administrator shall enforce the provisions of this chapter in cooperation with the superintendent of public instruction and the building code advisory board.
(2) The administrator shall promulgate rules necessary to carry out the provisions of this chapter. Such rules shall be promulgated pursuant to the provisions of chapter 52, title 67, Idaho Code.

(3) The administrator shall establish a program for the timely review of public school construction plans as required by section 39-4113(4)(f), Idaho Code.

(4) Upon request, the administrator shall provide training to school districts on the Idaho uniform school building safety code.

§ 39-8008. Additional duties of administrator -- Right of inspection -- Posting

(1) The administrator shall have authority under this section to enter all public school facilities covered by this chapter at reasonable times to inspect, on an annual basis, such facilities for compliance with the Idaho uniform school building safety code; provided however, that inspections shall take into account the age of the school facilities and the appropriate codes that would have been in effect at the time of the construction of such facilities; provided further, that regardless of the codes in effect at the time of construction, imminent safety hazards found in public school facilities shall be identified and the provisions of this chapter relating to such imminent safety hazards shall apply.

(2) If the administrator finds a violation of the Idaho uniform school building safety code that he concludes does not constitute an imminent safety hazard or serious safety hazard, he shall notify in writing the school district superintendent, principal, board member, or other person in charge. Such notification shall state, in bold print, that the citations for violations or nonconformances constitute recommendations only.

(3) If the administrator finds a violation of the Idaho uniform school building safety code that he concludes constitutes a serious safety hazard, he shall immediately issue a written order or notice requiring the school superintendent, principal, board of trustees or other person in charge to eliminate the condition without delay and within the time specified by the administrator in the notice or order, but not exceeding one (1) year. The administrator may also designate a licensed professional to independently evaluate the identified condition prior to issuing a written order to eliminate the condition.

(4) If the administrator finds a violation of the Idaho uniform school building safety code that he concludes constitutes an imminent safety hazard, he shall, within two (2) working days, designate a licensed professional to independently evaluate the identified condition prior to issuing any report under this chapter. That licensed professional shall, within fourteen (14) days, complete its independent evaluation of the condition identified by the administrator and notify the administrator of its conclusions. If the administrator determines that the condition constituting an imminent safety hazard could reasonably be expected to cause death or serious physical harm before the evaluation of the designated licensed professional can be completed and before the condition can be eliminated, he shall determine the extent of the area where such condition exists and thereupon shall issue a written order or notice requiring the school district superintendent, principal, board of trustees or other person in charge to cause all persons, except those necessary to eliminate the condition, to be withdrawn from, and to be restrained from entering, such area pending the evaluation of the designated licensed professional. This order shall be withdrawn if the evaluation of the designated li-
censed professional does not concur with the administrator that the condition constitutes an imminent safety hazard as could reasonably be expected to cause death or serious physical harm before the condition can be eliminated.

(5) If upon receipt of the findings if the designated licensed professional, the administrator concludes that any condition by such licensed professional constitutes an imminent safety hazard, the administrator shall immediately serve, or cause to be served, written notice or order upon the school district superintendent, principal, board of trustees or other person in charge describing the imminent safety hazard. The administrator shall also notify in writing the state superintendent of public instruction of such imminent safety hazard. Upon receipt of such written notice or order, the school district superintendent, principal, board of trustees, or other person in charge shall require all changes necessary to eliminate the imminent safety hazard be made, without delay and within the time specified by the administrator in the notice or order. If the condition presenting an imminent safety hazard is not corrected within the specified time, or if the administrator determines that the condition constituting such imminent safety hazard could reasonably be expected to cause death or serious physical harm before the condition can be eliminated, if he has not previously done so he shall determine the extent of the area where such condition exists and thereupon shall issue an order or notice requiring the school district superintendent, principal, board member, or other person in charge to cause all persons, except those necessary to eliminate the condition, to be withdrawn from, and to be restrained from entering, such area. The school district superintendent, principal, board member, or other person in charge shall assist the administrator as necessary to post such areas to prevent injury.

(6) If the administrator finds a violation of the Idaho uniform school building safety code that he concludes constitutes a serious safety hazard and issues a written order or notice requiring the conditions to be eliminated in not more than one (1) year, and the school superintendent, principal, board of trustees, or other person in charge contests the administrator's finding that the condition is a serious safety hazard, then the school superintendent, principal, board of trustees, or other person in charge shall have fourteen (14) days from the date of the issuance of the administrator's written order or notice to request a hearing to initiate a contested case under chapter 52, title 67, Idaho Code. If a hearing is requested, the superintendent of public instruction shall appoint a hearing officer to consider the contested case. All administrative proceedings under this subsection shall be expedited as necessary to assure that serious safety hazards are eliminated as required by this section if the administrator's initial determination that there was a serious safety hazard is confirmed in the contested case proceedings.

(7) The administrator shall monitor the school district's progress in addressing any identified imminent safety hazard or serious safety hazard to ensure that appropriate corrective action was taken. The administrator may extend the time for completing corrective action if he deems necessary.

(8) Upon completion of corrective action and verification of such completion by the division of building safety and the department of administration, the administrator shall provide a report to the state superintendent of public instruction, the local superintendent of schools and the chair of the local school board.

(9) Annual inspections of public school facilities conducted by the administrator under the provisions of this section shall be funded pursuant to legislative appropriation.
§ 39-8009. Injunction

Upon failure of the district superintendent, principal, board of trustees, or other person in charge to comply with the requirements stated in any notice or order relating to an imminent safety hazard or serious safety hazard, the administrator may maintain an action in the name of the state of Idaho to enjoin the district superintendent, principal, board of trustees or other person in charge from acting in violation of such notice or order or from doing any action that interferes with the administrator carrying out his statutory duties. Such action shall be brought in the district court in which said acts are claimed to have been committed by filing a verified complaint setting forth said act. The court, if satisfied from such complaint or affidavits that the act complained of has been or is being committed and will persist, may issue a temporary writ without notice or bond enjoining the defendant from the commission of such act pending final disposition of the cause. The cause shall proceed as in other causes for injunction. If, at the trial, the commission of said act by the defendant be established and the court further finds it probable that the defendant will continue in such act or similar acts, the court shall enter a decree enjoining said defendant from committing said or similar acts.

§ 39-8010. Appeal to building code advisory board

(1) The Idaho building code advisory board shall, within ten (10) days after receipt of notice for an appeal, hear such appeal brought before it by a school district affected by any finding pursuant to this chapter that there exists in a school building a violation of the uniform school building safety code, provided however, that an appeal brought pursuant to this section shall not affect the ability of the administrator to obtain an injunction pursuant to section 39-8009, Idaho Code. Such hearing shall be governed by the provisions of chapter 52, title 67, Idaho Code. Final decisions of the board, other than code interpretations, are subject to judicial review in accordance with the provisions of chapter 52, title 67, Idaho Code.

(2) The board shall provide reasonable interpretations of the codes enumerated in this chapter.

(3) Within ten (10) days of the conclusion of the hearing, the board shall render its findings and decisions in writing to the state superintendent of public instruction, the administrator of the division of building safety and the appealing district.

§ 39-8011. Violations

(1) If a school district, the district superintendent, principal, board of trustees, or other person in charge willfully violates the provisions of this chapter, the state superintendent of public instruction shall withhold such ensuing apportionments as are necessary to make repairs to abate the identified imminent safety hazard or serious safety hazard. Withheld funds, not to exceed one and one-half percent (1 1/2%) of the district's appropriation, shall be disbursed only to pay for such repairs.

(2) If the funds that would be raised over two (2) fiscal years from applying the provisions of subsection (1) of this section are insufficient, in combination with all moneys that will be available in the district's school building maintenance allocation for the same period, to provide sufficient
moneys to abate the identified imminent or serious safety hazard, then the administrator shall submit an application to abate said hazard to the Idaho public school facilities cooperative funding program panel pursuant to section 33-909, Idaho Code.

(3) It is a misdemeanor to remove, without permission of the administrator, a notice or order posted pursuant to this chapter.

§ 39-8012. Severability

If any portion of this act, or the application of any provision of this act to any person or circumstance, shall be held invalid, the remainder of this act, or the application of such provision to persons or circumstances other than those to which it is held invalid, shall not be affected.

000. LEGAL AUTHORITY.
The Administrator of the Division of Building Safety is authorized under Section 39-8007, Idaho Code, to promulgate rules concerning the enforcement and administration of the Idaho Uniform School Building Safety Act. (3-15-02)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 07.06.01, “Rules Governing Uniform School Building Safety,” Division of Building Safety. (3-15-02)

02. Scope. These rules prescribe the Idaho Uniform School Building Safety Code and provide for enforcement and administration of the Idaho Uniform School Building Safety Act by the Administrator of the Division of Building Safety. (3-15-02)

002. WRITTEN INTERPRETATIONS.
The Division of Building Safety may have written interpretations of this chapter. These documents, if any, are available for public inspection and copying in the central office of the Division of Building Safety. (4-6-05)

003. ADMINISTRATIVE APPEALS.
Administrative appeals may be taken from any finding made by the Administrator of the Division of Building Safety pursuant to this chapter as provided by Section 39-8010, Idaho Code. (3-15-02)

004. INCORPORATION BY REFERENCE.

01. Uniform Codes. The following uniform codes are hereby incorporated by reference into these rules as, and insofar as, the most recent editions have been adopted by the appropriate governing authority for the state of Idaho pursuant to Sections 39-4109, 41-253, 39-8614, 54-1001, 54-2601, 54-5001, and 72-508, Idaho Code: (3-29-10)

   a. International Building Code; (3-29-10)
   b. International Mechanical Code; (3-29-10)
   c. International Fuel Gas Code; (3-29-10)
   d. Safety Code for Elevators and Escalators (ASME/ANSI A17.1); (3-29-10)
   e. International Energy Conservation Code; (3-29-10)
   f. Accessible and Usable Buildings and Facilities (ICC/ANSI A117.1); (3-29-10)
   g. International Fire Code (IFC); (3-29-10)
   h. National Electrical Code (NEC); (3-29-10)
   i. Uniform Plumbing Code (UPC); (3-29-10)
   j. Pacific NW AWWA Manual for Backflow Prevention and Cross Connection Control; and (3-29-10)
   k. Idaho General Safety and Health Standards. (3-29-10)
02. *Idaho Uniform School Building Safety Code.* The codes set forth in Subsection 004.01 of this rule, together with the definitions contained therein and the written interpretations thereof, insofar as they are applicable to school facilities, shall constitute the Idaho Uniform School Building Safety Code. A copy of each of the identified codes is available for review at the main office of the Division of Building Safety. (3-29-10)

005. (RESERVED)

006. CITATION. The official citation of this chapter is IDAPA 07.06.01, et seq. For example, the citation for this section is IDAPA 07.06.01.006. (3-15-02)

007. -- 009. (RESERVED)

010. DEFINITIONS.

02. **Administrator.** The Administrator of the Division of Building Safety for the state of Idaho. (3-15-02)

03. **Building Code.** The Building Code specified in Paragraph 004.01.a. of these rules. (4-6-05)

04. **Code.** The Idaho Uniform School Building Safety Code. (3-15-02)

05. **Division.** The Idaho Division of Building Safety. (3-15-02)

06. **Imminent Safety Hazard.** A condition that presents an unreasonable risk of death or serious bodily injury to occupants of a building. (3-15-02)

07. **School Building or Building.** Any school building, including its structures and appurtenances necessary for the operation of the school building, and subject to the provisions of the Act. (3-15-02)

08. **Serious Safety Hazard.** A condition that presents an unreasonable health risk or risk of injury to occupants of a building. (4-6-05)

011. -- 049. (RESERVED)

050. VIOLATION OF CODE.

01. **Duty to Act.** The Administrator shall immediately undertake the steps set forth in the Act whenever he shall find a violation of the Code. (3-15-02)

02. **Imminent Safety Hazard.** Code violations, which shall constitute an imminent safety hazard, include, but are not limited to, the following:

   a. Whenever any door, aisle, passageway, stairway or other means of exit is not of sufficient width or size or is not so arranged as to provide safe and adequate means of exit in case of fire or panic; (3-15-02)

   b. Whenever the walking surface of any aisle, passageway, stairway or other means of exit is so warped, worn, loose, torn or otherwise unsafe as to not provide safe and adequate means of exit in case of fire or panic; (3-15-02)

   c. Whenever the stress in any materials, member or portion thereof, due to all dead and live loads, is more than one and one half (1-1/2) times the working stress or stresses allowed in the Building Code for new buildings of similar structure, purpose or location; (3-15-02)
d. Whenever any portion thereof has been damaged by fire, earthquake, wind, flood or by any other cause, to such an extent that the structural strength or stability thereof is materially less than it was before such catastrophe and is less than the minimum requirements of the Building Code for new buildings of similar structure, purpose or location; (3-15-02)

e. Whenever any portion or member or appurtenance thereof is likely to fail, or to become detached or dislodged, or to collapse and thereby injure persons or damage property; (3-15-02)

f. Whenever any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof is not of sufficient strength or stability, or is not so anchored, attached or fastened in place so as to be capable of resisting a wind pressure of one-half (1/2) of that specified in the Building Code for new buildings of similar structure, purpose or location without exceeding the working stresses permitted in the Building Code for such buildings; (3-15-02)

g. Whenever any portion thereof has wracked, warped, buckled or settled to such an extent that walls or other structural portions have materially less resistance to winds or earthquakes than is required in the case of similar new construction; (3-15-02)

h. Whenever the building or structure, or any portion thereof, because of:

i. Dilapidation, deterioration or decay; (3-15-02)

ii. Faulty construction; (3-15-02)

iii. The removal, movement or instability of any portion of the ground necessary for the purpose of supporting such building; (3-15-02)

iv. The deterioration, decay or inadequacy of its foundation; or (3-15-02)

v. Any other cause, is likely to partially or completely collapse; (3-15-02)

i. Whenever any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the building regulations of this jurisdiction, as specified in the Building Code, or of any law or ordinance of this state or jurisdiction relating to the condition, location or structure of buildings; (4-6-05)

j. Whenever any building or structure which, whether or not erected in accordance with all applicable laws and ordinances, has in any nonsupporting part, member or portion less than fifty percent (50%), or in any supporting part, member or portion less than sixty-six percent (66%) of the:

i. Strength; (3-15-02)

ii. Fire-resisting qualities or characteristics; or (3-15-02)

iii. Weather-resisting qualities or characteristics required by law in the case of a newly constructed building of like area, height and occupancy in the same location; (3-15-02)

k. Whenever any building or structure, because of obsolescence; dilapidated condition; deterioration; damage; inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections or heating apparatus; or other cause, is determined by the state fire marshal to be a fire hazard; (3-15-02)

l. Whenever a building or structure, because of inadequate maintenance; dilapidation; decay; damage; faulty construction or arrangement; inadequate light, air or sanitation facilities; or otherwise, is determined to be unsanitary, unfit for human occupancy or habitation, or in such a condition that is likely to cause accidents, sickness, or disease; (3-15-02)

m. Whenever any building or structure, because of dilapidated condition; deterioration; damage;
inadequate exits; lack of sufficient fire-resistive construction; faulty electric wiring, gas connections, or heating apparatus; or other cause, is determined by the state fire marshal to be a fire or life safety hazard; and (3-15-02)

n. Whenever there is, within the building, the presence of vapors, fumes, smoke, dusts, chemicals, or materials in any form (natural or man made) in quantities that have been established by national health organizations to be a threat to the health or safety of the building occupants. This does not include materials stored, used, and processed in accordance with nationally recognized safety standards for the materials in question. (3-15-02)
