***DRAFT MINUTES OF THE MAY 21, 2015 MEETING**

*NOTE: The following report is not a verbatim transcript of the discussions at the meeting,
but is intended to record the significant features of those discussions.*

Chairman Matt Gardner called the meeting to order at 9:34 a.m. (MT).

Board Members Present:

Matt Gardner, Chairman
Gilbert Pond, Vice-Chairman
Debbie Oberhofer
Dan Long
Rick Garrett

DBS Staff Members Present:

C. Kelly Pearce, Administrator
Steve Keys, Deputy Administrator, Operations
Ron Whitney, Deputy Administrator, Administration
Patrick Grace, Deputy Attorney General
Fred Sisneros, Financial Manager
John Nielsen, Plumbing Program Manager
Larry Jeffres, Regional Manager, Region 1
Chris Jensen, Regional Manager, Region 3
Gary Sonnen, Regional Supervisor, Region 1
Chuck Knapp, Regional Supervisor, Region 1
Adam Bowcutt, Regional Supervisor, Region 3
Kevin Gellings, Regional Supervisor, Region 2
Bill Hatch, Public Information Officer
Renee Bryant, Administrative Assistant 2/Board Secretary

◆ **Open Forum**

Proposed Code Changes – The presenter of the topic *Proposed Code Changes* was unable to attend the meeting; therefore, the topic was removed from the agenda.

CEU - Business Practices/Training – Kenny Calkins, Representative for the Treasure Valley Master Plumbers Association, asked the Board to reconsider business-related practices/training CEUs for plumbing contractors.

A training packet, with regard to insurance, was provided to the Plumbing Program Manager. If not approved as a business-related topic, Mr. Calkin's suggested it be considered industry-related.

At the May 2014 meeting, the Board unanimously voted to add "Business" to the list of courses not considered for continuing education.

College of Western Idaho (CWI) – Steve Bennett, Program Coordinator for the CWI Plumbing Department, introduced himself. The focus of the department is to educate plumbers; specifically apprentices. Mr. Bennett explained the new approach to their apprenticeship program, as well as future aspirations.

Open House/Career Fair – Mr. Bennett stated the CWI will hold another open house on August 27th, 5:00–7:00 p.m., at its Canyon County Center.

Marc Swinney, CWI Director of Business & Manufacturing Programs, conveyed that on June 11th, 9:30–2:00 p.m., the CWI will participate in the Department of Labor’s Career Fair in Caldwell. Also, on August 27th, the CWI Ada County Campus at Black Eagle will hold an open house.

As requested, Mr. Swinney will email the locations of the open houses to the Board.

City and County Concerns – No items or concerns were brought forth.

◆ **Approval of July 22, 2015 Agenda**

MOTION: Gilbert Pond made a motion to accept the agenda with the amendment made under *Open Forum*. Rick Garrett seconded. All in favor, motion carried.

◆ **Approval of February 19, 2015 Minutes**

MOTION: Debbie Oberhofer made a motion to approve the minutes as written. Gilbert Pond seconded. All in favor, motion carried.

◆ **Water Softener Discharge**

This issue was addressed at the February 19th Board meeting. Upon reviewing IDAPA 07.02.06.011.30 and the installation page for the discharge on a softener, the Plumbing Program Manager saw no reason to pursue a change in the rule at this time. The Chairman agreed.

◆ **Water Softener Licensing**

A proposed rule to create a water conditioning/treatment specialty license was included in the packet.

David Loveday, Government Affairs Director for the Water Quality Association (WQA), provided a summary of the national Association’s background, as well as offered to work with the Board and State to develop a license.

Blake Jones, President of the Idaho Water Quality Association, stated prior to the meeting he had spoken to the Plumbing Program Manager and others; proposing the use of the Water Quality Association’s Certified Installer program as a foundation to the training and education elements of the licensure program.

A lengthy discussion ensued.

The Chairman requested the topic *Water Softener Licensing* be placed on the July meeting agenda for further discussion.

ACTION: The topic *Water Softener Licensing* will be placed on the July 22, 2015 Board meeting agenda as an informational item.

◆ **Plumbing Program Manager Report**

Training – In March, training was conducted in northern Idaho to contractors and inspectors. Approximately 50 individuals attended a class at the Division’s Meridian office in April. In June, training will be provided in eastern Idaho.

Code – When the Idaho State Plumbing Code (ISPC) was originally adopted under the 2009 Uniform Plumbing Code (UPC), there was discussion it would be updated every other cycle. The 2015 UPC is now available. Board Member Pond suggested going with the 2015 code since it is the most recent.

To consider the adoption of the 2015 UPC, the Plumbing Program Manager offered to provide a synopsis of changes made to the code at the July meeting.

ACTION: The Plumbing Program Manager will provide a summary of changes in the 2015 UPC at the July 2015 Board meeting.

Online Licensing – The Division has begun work to expand its online license renewal program; however, has come across issues with the process due to the differences in licensing requirements of the plumbing, electrical, and HVAC trades.

It was suggested the chairmen meet first and then the three boards; working together to reach an agreement on common license criteria for the three programs.

Water Pump Specialty Education Requirements – IDAPA rule requires water pump specialty journeymen and water pump specialty apprentices to complete Idaho Plumbing Board approved/related training classes. At this time, there are no classes available.

The Plumbing Program Manager suggested, and the Board agreed, to present proposed language to change the education requirements at a future meeting.

ACTION: The Plumbing Program Manager will provide a draft rule proposal to change the education requirements for water pump specialty licensees.

◆ **Operational Report**

Daily Operation – The Plumbing Program is stable and on a path of continuous improvement.

Compliance Program – DBS employee Terry Blessing has accepted the position of program manager with the Division’s new statewide compliance program. Currently, Mr. Blessing is traveling throughout the state meeting with inspectors, local jurisdictions and supervisors to ensure everyone is notified and on-board with the Division’s new program.

Testing – A demographic survey is provided at the completion of each exam. The tester is encouraged but is under no obligation to complete the survey.

Another statistical report is the *Journeyman First Exam Attempts Report*. The Administrator offered, and the Board agreed, for this report to be addressed at every regularly scheduled meeting.

ACTION: Beginning with the July 2015 Board meeting, the Division will provide the Journeyman First Exam Attempts Report in the Board packet.

◆ **Administrator Report**

Personnel Change – HVAC Program Manager Jerry Peterson has changed positions within the Agency. His new title is Energy Program Manager.

John Nielsen, Plumbing Program Manager, has taken on the responsibility of the HVAC program full-time, as well as continues to manage the Plumbing program.

Financial Report – The Idaho Plumbing Board Fund, FY 2015 financial statement as of March 31, 2015, was reviewed.

Anti-Trust Laws – Deputy Attorney General Patrick Grace addressed a recent decision made by the U.S. Supreme Court to uphold the Federal Trades Commission’s complaint against a private board. The Court held that “a state board on which a controlling number of decision makers are active market participants in the occupation the board regulates must satisfy **Midcal**’s active supervision requirement in order to invoke state-action antitrust immunity.”

National Construction Authority – Two weeks in March/April, the DBS hosted delegates with the National Construction Authority (NCA) from Kenya. The mission of the NCA is to regulate and coordinate the construction industry for sustainable social and economic development.

◆ **Adjournment**

MOTION: Dan Long made a motion to adjourn the meeting. Gilbert Pond seconded. All in favor, motion carried.

The meeting adjourned at 12:25 p.m. (MT).

IDAHO PLUMBING BOARD

Agenda Item No. 03 Idaho Statute 54-2608 - Revocation of Certificates of Competency -- Suspension -- Refusal to Renew

PRESENTER: Steve Keys, Deputy Administrator-Operations

OBJECTIVE: Authorize the Plumbing Board to suspend or refuse to renew a certificate of competency, as well as impose civil penalties.

ACTION: Vote to accept or deny the proposed statute change.

BACKGROUND: This topic was originally addressed in 2014. Upon the recommendation of the Administrator, the Board would review the various violations in the civil penalties; developing default penalties. The Division has already developed the framework to operate within. The only difference would be companies and individuals would have to come before the Board to plead their cases rather than to DBS.

PROCEDURAL HISTORY:

ATTACHMENTS: Idaho Code Chapter 54 Title 26

TITLE 54. PROFESSIONS, VOCATIONS, AND BUSINESSES

CHAPTER 26. PLUMBING AND PLUMBERS

§ 54-2601. Declaration of policy and purpose of act

(1) The purpose of this act is to provide certain minimum standards and requirements for the use of and the design, construction, installation, improvement, extension and alteration of materials, piping, venting, fixtures, appliances and appurtenances in relation to plumbing and plumbing systems hereinafter defined, and to provide that all plumbing and plumbing systems in the state shall be designed, constructed, installed, improved, extended and altered in substantial accord with the uniform plumbing code published by the international association of plumbing and mechanical officials, and as it shall be amended, revised, compiled and published from time to time and as subsequent editions, amendments or revisions thereto shall be adopted by the Idaho plumbing board; through the negotiated rulemaking process. Any amendments, revisions or modifications made to the uniform plumbing code by the board shall be made by administrative rules promulgated by the board. The uniform plumbing code together with any amendments, revisions or modifications made by the board shall collectively constitute and be named the Idaho state plumbing code. The board shall conduct a minimum of two (2) public hearings with notice of such public hearings provided in accordance with the provisions of section 67-2343, Idaho Code.

(2) Cities electing to implement a plumbing code enforcement program shall do so only in compliance with the provisions of this section. Cities may elect to implement a plumbing enforcement program by passing an ordinance evidencing the intent to do so. Cities that perform plumbing code enforcement activities shall, except as provided in subsection (3) of this section, by ordinance adopt the uniform plumbing code together with any amendments thereto made by the board, which shall collectively constitute and be named the Idaho state plumbing code. The effective date of any edition of the code adopted by the board shall be January 1 of the year following its adoption.

(3) Cities may further amend the Idaho state plumbing code adopted by the board in conformance with this section to address local concerns provided that such amendments prescribe at least an equivalent level of protection to that contained in the uniform plumbing code. Provided however, that no code other than the uniform plumbing code together with any amendments, revisions or modifications made by the board which collectively constitute the Idaho state plumbing code may serve as the minimum standard for plumbing installations in such city. A city electing to amend the Idaho state plumbing code as adopted by the board may do so only after a finding by the city that good cause exists for such an amendment and that such amendment is reasonably necessary. Prior to making a finding of good cause for such an amendment, the city shall conduct a public hearing. Notice of the time and place of the public hearing shall be published in the official newspaper or paper of general circulation within the city. Written notice of such public hearing and the text of the proposed amendment shall be given by the city to the board not less than thirty (30) days prior to such hearing.

(4) The remaining provisions of this act shall not apply, except as hereinafter provided, to cities if such cities enact ordinances or codes prescribing the Idaho state plumbing code and amendments it may make thereto in accordance with this section for all plumbing installations which shall be considered the equal minimum standards, and requirements including the enforcement thereof as provided by this act.

§ 54-2602. Exceptions

(1) Certificate of competency requirements of this chapter shall not be deemed to apply to:

(a) Any person who does plumbing work in a single or duplex family dwelling, including accessory buildings, quarters and grounds in connection with such dwelling; provided that such person owns or is a contract purchaser of the premises, and provided further that such person shall comply with the minimum standards and rules applicable to plumbing practices provided by this chapter.

(b) Farm buildings located outside the incorporated limits of any city unless such buildings are connected to a public water or sewer system; and a farm building is hereby defined to be a structure located on agricultural zoned property and designed and constructed to house farm implements, hay, grain, poultry, livestock or other horticultural products and includes sheds, barns, corrals, or fences. This definition does not include a place for human habitation or a place of regular employment where agricultural products are extracted, processed, treated, or packaged; a place used by the public; or conditioned livestock housing,

(c) Logging, mining or construction camps when plumbing installations are made to conform with the recommendations of the department of health and welfare.

(d) Piping systems in industrial processing plants located outside the incorporated limits of any city unless such systems are connected to a public water or sewer system.

(e) Work on plumbing systems on premises owned or operated by an employer who regularly employs maintenance or construction plumbers, provided that alterations, extensions and new construction shall comply with the minimum standards and rules applicable to plumbing practices provided by this chapter.

(f) Nothing contained in this section or any other provision of this code shall be construed or applied to require a sewer contractor, sewage disposal contractor, or any excavating or utility contractor who generally engages in the business of installing, altering or repairing sewers, private and public sewage disposal systems, and water distribution and/or drainage lines outside the foundation walls of any building or structure, to obtain a valid contractor's certificate of competency or to employ only journeymen plumbers possessing a valid journeyman plumber's certificate of competency or registration, or to in any way require that his employees be registered, licensed or declared competent by the board.

(g) Water treatment installations and repairs when installed in residential or business properties, provided the same when installed, repaired or completed, shall be inspected by a designated, qualified and properly identified agent of the division of building safety as to quality of workmanship and compliance with the applicable provisions of this chapter.

(h) Plumbing work within modular buildings as defined in section 39-4301, Idaho Code, that are constructed in the state of Idaho for installation on building sites outside the state; provided however, that no modular building shall be installed on a building site in the state of Idaho until it has been approved and bears the insignia of approval of the division as being in compliance with the requirements set forth in section 39-4304, Idaho Code.

(i) Individuals licensed pursuant to chapter 10, title 54, Idaho Code, or chapter 50, title 54, Idaho Code, as follows:

(i) Individuals holding a current HVAC or electrical license may install electrical circuitry from the disconnecting means to a water heater and electrical connections to the water heater as long as the disconnect is in sight from the unit and the circuit from the disconnecting means to the water heater is no more than fifty (50) feet long.

(ii) Individuals holding a current HVAC license may install gas piping and piping for hydronic systems.

(iii) Individuals holding a current HVAC license may install boilers that are not otherwise subject to inspection by the industrial commission or its authorized agent.

(2) To the extent that an electrical or HVAC installation permit issued by the Idaho division of building safety includes any part of a plumbing installation, the permit issued and inspection performed shall be sufficient to satisfy the permitting and inspecting requirements of this chapter if all required permit fees have been paid.

(3) Any person, firm, copartnership, association or corporation making water treatment installations and/or repairs in accordance with the provisions of this chapter shall maintain a surety bond in the amount of two thousand dollars (\$ 2,000).

§ 54-2603. Plumbing

Plumbing means and includes the business, trade practice or work, materials and fixtures used in the design, construction, installation, improvement, extension and alteration of all piping, fixtures, appliances and appurtenances in connection with any plumbing system.

§ 54-2604. Plumbing systems

(1) A plumbing system, public or private, means and includes:

(a) Plumbing fixtures, interconnecting system pipes and traps;

(b) Soil, waste and vent pipes;

(c) Building drains and building sewers;

(d) Sanitary and storm water drainage facilities;

(e) Liquid waste and sewerage facilities;

(f) Water supply systems and distribution and disposal pipes of any premises;

(g) Water treating and water using equipment attached to a plumbing system except for water conditioning equipment;

(h) All the respective connections, devices and appurtenances of any plumbing system, public or private, within or adjacent to any building, residence, manufactured housing, or structure to and including a connection with any point of a public or private supply, distribution or disposal system or other acceptable terminal; and

(i) Water heaters and all associated venting dedicated exclusively thereto.

(2) As used in this section, "water conditioning equipment" shall mean those devices necessary to remove impurities and sediment from water.

(3) A plumbing system does not include a single service integrated fire sprinkler system as defined in section 41-254, Idaho Code.

(4) It shall be unlawful for any person, firm, copartnership, association or corporation to do, or cause to be done, whether acting as a principal, agent, or employee, any construction, installation, improvement, extension or alteration of any plumbing system or water conditioning equipment in any residence, building, or structure, or service lines thereto, in the state of Idaho, without complying with the bonding provisions as provided by section 54-2602, Idaho Code.

§ 54-2605. Idaho plumbing board

(1) The Idaho plumbing board, referred to as the board, is hereby created and made a part of the division of building safety. It shall be the responsibility and duty of the administrator of the division of building safety to administer and enforce the provisions of this act; and the board shall make, promulgate and publish such rules as may be necessary for carrying out the provisions of this act in order to effectuate the purposes thereof and for the orderly and efficient administration thereof, and except as may be limited or prohibited by law and the provisions of this act, such rules so made and promulgated shall have the force of statute.

(2) The board shall consist of five (5) members. The members shall be appointed at large by the governor, with power of removal for cause. Members shall be appointed for a term of three (3) years. Whenever a vacancy occurs the governor shall forthwith appoint a qualified person to fill the vacancy for the unexpired portion of the term.

(3) All members of the board shall be United States citizens, residents of this state for not less than two (2) years, and qualified by knowledge, integrity and experience to properly execute the functions of the board. Two (2) members shall be qualified persons representing the public at large; one (1) member shall be an active plumbing contractor with not less than five (5) years experience in the plumbing contracting business; one (1) member shall be an active plumbing contractor with not less than five (5) years in the plumbing contracting business with an additional background of experience in gas piping installations in buildings; and one (1) member shall be a journeyman plumber. All members of the board shall take, subscribe and file with the secretary of state an oath of office in the form, manner and time prescribed by chapter 4, title 59, Idaho Code.

(4) The board shall meet within thirty (30) days after the appointment of all its members and thereafter at such other times as may be expedient and necessary for the proper performance of its duties. At the board's first meeting, the members shall elect one (1) of their number to be chairman. A majority of the board shall constitute a quorum for the transaction of business and not less than two (2) quorum meetings shall be held each year. The board may delegate to any member, or its chairman or other employees, the power to make investigations and hold hearings at any place it may deem proper, and to report findings to it; and may delegate to its chairman and employees the performance of ministerial functions.

(5) Each member of the board shall be compensated as provided by section 59-509(h), Idaho Code.

§ 54-2606. Powers and duties of the Idaho plumbing board

(1) The board shall have the general administration and supervision of the design, construction, installation, improvement, extension and alteration of plumbing and plumbing systems, except that which has been heretofore and hereinafter exempted from the jurisdiction of this board, in connection with all buildings, residences and structures in this state including buildings, residences and structures owned by the state or any political subdivision thereof.

(2) The division of building safety shall enforce the minimum standards and requirements therefore as provided by this chapter.

(3) The board may exercise such powers and duties as are reasonably necessary to carry out the provisions of this chapter, and it may among other things:

(a) Establish the fees to be charged for permits and inspections of plumbing systems.

(b) Hold public meetings and attend or be represented at such meetings, within or without the state, prepare and publish rules pertaining to this chapter, and such other information as may be necessary, and furnish copies thereof to those engaged in the business, trade, practice or work of plumbing and pipefitting and to the public upon request.

(c) Furnish standards and procedures and prescribe reasonable rules for examinations, qualification and certification of plumbing contractors and journeymen and apprentice plumbers not herein prescribed, including the establishment of continuing education requirements for journeyman and plumbing contractors.

(d) Require the furnishing of a compliance bond by plumbing contractors in an amount not to exceed two thousand dollars (\$ 2,000) for the contractor classification or evidence of such coverage by a corporate industry group bond acceptable to the board.

(e) Furnish standards and procedures and prescribe reasonable rules to provide for the certification of specialty contractors, specialty journeymen, and specialty apprentices, including the furnishing of a compliance bond in an amount not to exceed two thousand dollars (\$ 2,000) for the specialty contractor classification or evidence of coverage by a corporate industry group bond acceptable to the board.

(f) **The board is authorized to impose civil penalties for violations of this chapter and rules of the Idaho plumbing board, and shall establish** by administrative rule civil penalties not to exceed one thousand dollars (\$ 1,000) for each count or separate offense, ~~to be paid for violations of this chapter and rules of the Idaho plumbing board; and to establish by administrative rule the process by which appeals from the imposition of civil penalties may be heard. The board is authorized to affirm, reject, decrease or increase the penalty imposed; however, the board shall not increase any penalty imposed to an amount exceeding one thousand dollars (\$1,000) for each individual count or separate offense.~~ **The board is authorized to conduct contested cases regarding the imposition of civil penalties. The proceedings shall be governed by the provisions of chapter 52, title 67, Idaho Code.**

§ 54-2607. Administrator of the division of building safety -- Powers and duties

(1) The administrator shall exercise such powers and duties as are reasonably necessary to enforce the minimum standards provided in this chapter, and he may among other things:

(a) Prescribe and establish procedures to effectuate the efficient enforcement of this chapter not herein prescribed.

(b) Serve as secretary to the Idaho plumbing board.

(c) Appoint licensed staff inspectors who shall be authorized to enter and inspect by and through a properly identified person, at reasonable hours, plumbing and plumbing systems.

(d) Make plumbing inspections for another state or local jurisdiction upon request by an appropriate building official. Such inspections shall be made in accordance with the applicable plumbing codes of the requesting jurisdiction. Fees charged for such inspection services shall be as provided in the rules promulgated by the board.

~~(e) Summon witnesses to appear and testify before him on any matter within the provisions of this chapter. No person shall be required to testify outside the county wherein he resides or where his principal place of business is located. Such summons~~

~~to testify shall be issued and served in like manner as a subpoena to witness issued from the district court, or in other manner consistent with the procedure of the division of building safety. In case any witness shall fail or refuse to appear and testify upon being summoned as herein provided, the clerk of the district court of the county shall upon demand by the administrator or his designated agent, issue a subpoena reciting the demand therefore and summoning the witness to appear and testify at a time and place fixed. Violation of such subpoena or disobedience thereto shall be deemed and punished as a violation of any other subpoena issued from the district court.~~

~~(f) Administer oaths and take affirmations of witnesses appearing before him; and have the power to appoint competent persons to issue subpoenas, administer oaths and take testimony.~~

~~(g) Impose civil penalties as provided in this chapter and the rules of the Idaho plumbing board.~~

(h) In addition to any other penalties specified in this chapter, whenever any person violates the provisions of this chapter and the rules of the Idaho plumbing board, the administrator may maintain an action in the name of the state of Idaho to enjoin that person from any further violations. Such action may be brought either in the county in which the acts are claimed to have been or are being committed, or in the county where the defendant resides, or in Ada County.

(i) Upon the filing of a certified complaint in the district court, the court, if satisfied that the acts complained of have been, or probably are being, or may be committed, may issue a temporary restraining order, or a preliminary injunction, or both, without bond, enjoining the defendant from the commission of any such act or acts constituting the violation.

(ii) A copy of the complaint shall be served upon the defendant and the proceedings shall thereafter be conducted as in other similar civil actions.

(iii) If the commission of the act or acts is established, the court shall enter a decree permanently enjoining the defendant from committing such act or acts. If an injunction issued under the provisions of this section is violated, the court, or the judge thereof at chambers, may summarily try and punish the offender for contempt of court.

(2) It shall be the duty of the administrator to give notice to cities which supply sewer service to areas outside their city limits and who have requested in writing such notice from the administrator of all permits issued relative to sewer installations. The notice shall be given within ten (10) days from the date the permit was requested for such installation. The notice shall contain a map of the physical location of the installation and reference to the date of inspection if the city so requests.

§ 54-2608. Revocation of certificates of competency -- Suspension -- Refusal to renew

The administrator of the division of building safety shall have on the recommendation of the **plumbing board shall have** the power to revoke, suspend or refuse to issue a renewal of any certificate of competency if the same was obtained through error or fraud, or if the holder thereof is shown to be grossly incompetent or has a second time violated any of the rules prescribed by the board, or as prescribed by this act. Before the **administrator plumbing board** shall refuse to grant a renewal of said certificate to any applicant or shall revoke or suspend any certificate previously granted, **he it** shall hold a hearing giving such applicant or holder of said certificate fifteen (15) days written notice of his intended action by registered mail directed to the applicant or holder at the ad-

dress given on said certificate or in the application for said certificate, stating generally the basis for his intended action; and the applicant or holder of said certificate shall have the opportunity to produce testimony in his own behalf at a time and place specified in said notice. The proceedings shall be governed by the provisions of chapter 52, title 67, Idaho Code. If the **administrator plumbing board**, after the hearing, shall refuse to grant a renewal of said certificate or shall suspend or revoke any certificate previously granted, said applicant or holder of a certificate may seek judicial review of the administrator's final order in accordance with the provisions of chapter 52, title 67, Idaho Code. Any person whose certificate has been revoked may, after the expiration of one (1) year from the date of revocation, but not before, apply for a new certificate of competency.

§ 54-2609. Character of examination -- Certification

The board shall determine the character and extent of the examination based upon the standards and requirements prescribed by this act, and upon certifications of examination results by the board, the **direct administrator** shall issue certificates of competency to the successful applicants.

§ 54-2610. Certificate a prerequisite

It shall be unlawful for any person or firm, copartnership, association or corporation, to engage in the business, trade, practice or work of plumbing in this state after the adoption of this chapter, unless such person, or responsible person representing such firm, copartnership, association or corporation, has successfully passed an examination as provided herein and has issued to him a state certificate of competency, which shall not be transferable, and said certificates of competency shall not be required for sewer contractors, sewage disposal contractors, or any excavating or utility contractors, or for their employees, as set forth and defined in section 54-2602(1)(f), Idaho Code.

§ 54-2611. Classification of competency

There shall be three (3) classifications of competency in the business, trade, practice or work of plumbing and three (3) classifications of competency in the business, trade, practice or work of specialty plumbing, as follows:

(a) A plumbing contractor shall be any person, or a member, representative or agent of a firm, copartnership, association, or corporation skilled in the planning and supervision of the construction, installation, improvement, extension and alteration of plumbing systems, and who is familiar with the provisions of this act and the rules made by the Idaho plumbing board, and who is competent to offer and to assume to work on a contract basis and to direct the work of qualified employees. A contractor who in person does plumbing work shall also be qualified as a journeyman plumber, or have in his employ on all work a qualified journeyman.

(b) A plumbing journeyman shall be any person, who as his principal occupation, is engaged in the installation, improvement, extension and alteration of plumbing systems, and who is familiar with the provisions of this act and who works in the employ and under the direction of a plumbing contractor.

(c) A plumbing apprentice shall be any person, who as his principal occupation is engaged in learning and assisting in installation, improvement, extension and alteration of plumbing systems. Apprentices shall not perform plumbing work except under the supervision of a journeyman.

(d) A specialty contractor shall be any person, or a member, representative or agent of a firm, copartnership, association, or corporation skilled in the specialty classification for which he is certified and who is familiar with the provisions of this act and rules made by the Idaho plumbing board, and who is competent to offer and to assume work on a contract basis and to direct the work of qualified employees. A specialty contractor who in person does specialty work shall also be qualified as a specialty journeyman, or have in his employ on all work a specialty journeyman.

(e) A specialty journeyman shall be any person who is engaged in the specialty classification for which he is certified and who is familiar with the provisions of this act and who works in the employ and under the direction of a plumbing or specialty contractor.

(f) A specialty apprentice shall be any person who is engaged in learning and assisting in the specialty classification for which he is registered. Specialty apprentices shall not perform specialty work except under supervision of a specialty journeyman.

§ 54-2612. Examinations -- Time and place -- Notification

Times and places for examinations shall be determined by the board and all applicants shall be notified thereof.

§ 54-2613. Application for examination

All applications for examination shall be filed with the board on the form provided. When any person, or persons, is designated and authorized to be or act as an agent for the applicant, such authorization shall be in writing, signed by the applicant and the person designated, a certified copy of which shall be filed with the board. All applications shall expire and be cancelled after a period of one year if the applicant fails to appear for examination within such period.

§ 54-2614. Application and registration fees

All applicants shall pay to the board at the time of application for examination, a fee in accordance with the following:

Application for Plumbing Contractor	\$22.50
Application for Plumbing Journeyman.	\$22.50
Application for Specialty Contractor.	\$22.50
Application for Specialty Journeyman.	\$22.50

Apprentices and specialty apprentices shall not be required to be examined for competency, but shall register as an apprentice or specialty apprentice with the division of building safety and maintain such registration during the entire period in which they are accruing their experience. The registration fee for apprentices shall be fifty dollars (\$ 50.00) per renewal. The registration fee for specialty apprentices shall be thirty dollars (\$30.00) per renewal. The board may contract with a professional testing service to administer any licensing examination and any contracted professional testing service shall be responsible to establish and collect the examination fee. Any person who fails to pass the examination may apply for reexamination at the next scheduled examination upon payment of the examination fee. Should any person fail to pass the examination the second time, the board may refuse to allow a subsequent examination until the expiration of one (1) year.

§ 54-2614A. Apprentice and specialty apprentice registration and renewal

Registration for an apprentice shall be valid for five (5) years and shall expire on the last day of the month in which it is set to expire unless renewed. Registration for a specialty apprentice shall be valid for three (3) years and shall expire on the last day of the month in which it is set to expire unless renewed. An apprentice registration or specialty apprentice registration may be renewed at any time during the month prior to its expiration. Failure of any apprentice to timely renew a registration shall cause a lapse of the registration, but it may be revived within one (1) year upon payment of the renewal fee.

§ 54-2615. Certificate of competency

Upon the applicant's successful completion of an examination, as certified by the board, he shall be issued a certificate of competency in the form of a card, providing thereon the holder's name, classification for which the applicant was examined, year current, space for the holder's signature, the certificate number, and the signature of the administrator of the division of building safety.

§ 54-2616. Fees for certificates -- Prorating

(1) Before a certificate is issued, and for the renewal thereof, the successful applicant shall pay to the division of building safety a fee in accordance with the following schedule:

	Initial Fee	Renewal
Plumbing Contractor	\$75.00	\$36.00
Plumbing Journeyman	\$15.00	\$7.20
Specialty Contractor	\$75.00	\$36.00
Specialty Journeyman	\$15.00	\$7.20

(2) The administrator of the division of building safety shall have the authority to prorate and assess the initial certificate fees as follows: the amount of the initial fee, plus the product of one-twelfth (1/12) of the amount of the renewal fee for that particular category of certificate multiplied by the number of months in excess of twelve (12) for which the certificate is issued. No certificate shall be issued for less than twelve (12) months.

(3) The administrator of the division of building safety shall have the authority to prorate and assess the renewal fees as follows: the number of months the certificate will be in effect, multiplied by one-twelfth (1/12) of the renewal fee for that particular category of certificate. No renewal shall be issued for less than twelve (12) months.

§ 54-2617. Certificate expiration -- Renewal -- Rules for staggered schedule

(1) Certificates of competency shall be issued for a period of **up to** three (3) years, and shall expire three (3) years from the date of issue, unless sooner revoked or suspended.

(2) A certificate of competency for plumbing contractor or journeyman may be renewed at any time during the month prior to its expiration by providing proof of completion of the continuing education requirements as established by the board and compliance with all other renewal requirements of statute or rule. A certificate of competency for plumbing specialty contractor and specialty journeyman may be renewed at any

time during the month prior to its expiration by compliance with all renewal requirements of statute or rule.

(3) Failure of any holder to timely renew a certificate of competency shall cause lapse of the certificate, but it may be revived within one (1) year without examination on-ly upon payment of the full initial fee.

(4) The board shall promulgate rules to provide for a staggered schedule of issu-ing and renewing certificates of competency.

§ 54-2618. Certificate to be displayed and certificates of competency and registra-tion carried or in vicinity of work site

All holders of valid certificates in the contractor and specialty contractor classifications shall display a sign or card, upon a form prescribed and furnished by the division of building safety, for public view in their place of business. All journeymen and specialty journeymen shall have their certificate of competency on their persons or in the immedi-ate vicinity of the work site during working hours. Apprentices and specialty apprentices shall have evidence of registration on their persons or in the immediate vicinity of the work site during working hours.

§ 54-2619. Municipal fees for permits, inspections -- Exceptions

No provision of this act shall deprive incorporated cities, including those specially char-tered, from collections of fees from permits and inspections. Notwithstanding the provi-sions of sections 50-304, 50-306 and 50-606, Idaho Code, no cities, including those specially chartered, shall require occupational license fees from plumbing contractors and journeymen who possess a valid certificate of competency issued by the adminis-trator of the division of building safety, except those cities that have qualified plumbing inspectors.

§ 54-2620. Permits required -- Exceptions

It shall be unlawful for any person, firm, copartnership, association or corporation to do, or cause or permit to be done, after the adoption of this act, whether acting as principal, agent or employee, any construction, installation, improvement, extension or alteration of any plumbing system in any building, residence or structure, or service lines thereto, in the state of Idaho, without first procuring a permit from the division of building safety authorizing such work to be done, except:

(1) Within the boundaries of incorporated cities, including those specially char-tered, where such work is regulated and enforced by an ordinance or code equivalent to this chapter;

(2) Within such additional area within five (5) miles of the city limits over which such city has elected to exercise jurisdiction relative to building drains and building sewers pursuant to section 50-606, Idaho Code, on buildings, residences and structures being converted from an on-site sewage disposal system to a sewage disposal system supplied by the city, where such work is regulated and enforced by an ordinance or code equivalent to this chapter. Cities shall provide the division of building safety written notice of the area over which such jurisdiction will be exercised. No city may exercise such jurisdiction within the limits of another city unless both cities have agreed by ordi-nance to allow such jurisdiction. For purposes of this chapter building drain and building sewer will be defined according to the definition found in the uniform plumbing code or as adopted by the board, pursuant to section 54-2601, Idaho Code.

Permits shall be issued only to a person, or to a firm, copartnership, association or corporation represented by a person holding a valid certificate of competency, or to a person who does his own work in a family dwelling as defined in section 54-2602(1)(a), Idaho Code, except that permits shall not be required for plumbing work as defined in section 54-2602(1)(b), (1)(c) and (1)(d), Idaho Code.

Provided, a licensed plumber is hereby authorized, after making application for permit and pending receipt of permit, to proceed and complete improvements or alterations to plumbing systems, when the cost of said improvement or alteration does not exceed the sum of five hundred dollars (\$ 500). Inspection of such work shall be the responsibility of the permit holder pending an official inspection, which shall be made within sixty (60) days after notification of inspection.

§ 54-2621. Work not requiring permits

A permit shall not be required for the clearing of stoppages or repairing of leaks in pipes, valves, fixtures, appliances or appurtenances of any plumbing system when such work does not involve or require any functional rearrangement of pipes, valves or fixtures comprising the plumbing system.

§ 54-2622. Permits -- Application -- Requirements

Any person, firm, copartnership, association or corporation entitled to receive a permit, shall make application to the board on the form provided. A description of the work proposed to be done, location, ownership, occupancy and use of the premises shall be given. The board may require plans and specifications and such other information as may be deemed necessary and pertinent before granting a permit. When it has been determined that the information furnished by the applicant is in compliance with this act, the permit shall be issued upon payment of the fees as hereinafter fixed.

§ 54-2622A. Inspections of modular buildings -- When authorized -- Approval and certification

Notwithstanding the exception provided in subsection (1)(h) of section 54-2602, Idaho Code, the administrator of the division of building safety may make plumbing inspections of any modular building upon written request from the manufacturer.

(1) Inspections shall be made in accordance with the codes adopted in this chapter.

(2) Inspection fees shall be as provided in section 39-4303, Idaho Code.

(3) The administrator may issue inspection tags for inspections if the buildings are in compliance with the codes adopted in this chapter.

§ 54-2623. Fee -- Permit -- Inspection

The applicant shall pay to the department at the time of application, a permit fee for each permit issued and an inspection fee in accordance with the schedule fixed by the Idaho plumbing board, which schedule shall not require inspection fees in amounts to exceed the expense of providing inspection.

§ 54-2624. Inspection by agent -- Tests

All pipes, fittings, valves, vents, fixtures, appliances and appurtenances shall be inspected by a designated, qualified and properly identified agent of the division of building safety to insure compliance with provisions of this act. In order to make inspections

uniform and complete, the board shall make, promulgate and publish such rules as are necessary to insure that any plumbing system has been designed, constructed, installed, improved, extended or altered in accordance with the provisions of this act and in accordance with the rules made, promulgated and published by the Idaho plumbing board.

§ 54-2625. Approval and certification of inspection

The inspector shall either approve that portion of the work completed at the time of inspection or shall notify the permit holder wherein the same fails to comply with this act and the rules and regulations of the Idaho plumbing board, and when final inspection has been made and the work approved, the inspector shall certify to the owner or permit holder or agency serving the premises by attaching securely an inspector's tag at the approximate service entrance that inspection has been made and found satisfactory as required by this act and ready for service.

§ 54-2626. Notification for inspection -- Fee for reinspection

It shall be the duty of the permit holder to notify the nearest representative of the division of building safety at least twelve (12) hours prior to the time of inspection, exclusive of Sundays and holidays, that he will be ready for inspection at a stipulated time. When reinspection is required after the final inspection because of failure to meet requirements of this act, it shall be made at a flat charge not to exceed the cost of reinspection.

§ 54-2627. Appointment of inspectors -- Qualifications -- Unlawful practices

The administrator of the division of building safety shall appoint such number of inspectors as may be required for the effective enforcement of this act. All inspectors shall be skilled in plumbing installations with not less than five (5) years actual experience, shall possess certificates of competency prior to appointment, and shall be fully familiar with the provisions of this act and rules made by both the administrator and the Idaho plumbing board. No inspector employed by the division of building safety and assigned to the enforcement of this act shall be engaged or financially interested in a plumbing business, trade, practice or work, or the sale of any supplies connected therewith, nor shall he act as an agent, directly or indirectly, for any person, firm, copartnership, association or corporation so engaged. Inspectors employed by municipalities electing to claim exemption under this act must possess the qualifications set forth in this section.

§ 54-2628. Violation -- Misdemeanor

Any person, or a firm, copartnership, association or corporation by and through a member, representative or agent, who shall engage in the business, trade, practice or work of plumbing without a certificate of competency or without registration, or perform work without a permit as provided by this act, or who shall violate any provision of this act or the rules made by both the administrator of the division of building safety and the Idaho plumbing board herein provided for, or who shall refuse to perform any duty lawfully enjoined upon him by the administrator within the prescribed time, or who shall fail, neglect, or refuse to obey any lawful order given or made by the administrator shall be guilty of a misdemeanor and shall be subject to a fine of not less than ten dollars (\$ 10.00) or more than three hundred dollars (\$ 300), or to imprisonment in the county jail not to exceed thirty (30) days, or both. Each such violation shall constitute a separate offense.

§ 54-2629. Attorney general -- Prosecuting attorneys

It shall be the right and duty of the attorney general or the prosecuting attorneys of the various counties to represent and appear for the people of the state of Idaho and the administrator of the division of building safety in all actions and proceedings involving any question under this act or under any order or act of the administrator and perform such other services as required.

§ 54-2630. Plumbing board fund created

All money received by the board or the division of building safety, under the terms and provisions of this chapter, shall be paid into the state treasury as directed by the provisions of section 59-1014, Idaho Code, and shall be, by the state treasurer, placed to the credit of the Idaho plumbing board fund, which is hereby created as a dedicated fund. All such moneys, hereafter placed in said fund, are hereby set aside and perpetually appropriated to the division of building safety to carry into effect the provisions of this chapter.

DRAFT

IDAHO PLUMBING BOARD

Agenda Item No. 04

Water Softener Licensing

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Discuss licensing for water conditioning and treatment installers.

ACTION: Informational

BACKGROUND: February 2015 - The Deputy Administrator-Operations and Plumbing Program Manager met with representatives from the water conditioning industry and together came up with a proposal to bring before the Plumbing Board.

Currently there are no licensing requirements per Idaho statute for this industry.

May 2015 - David Loveday, Government Affairs Director for the Water Quality Association (WQA), offered to work with the Board and State to develop a license.

Blake Jones, President of the Idaho Water Quality Association, proposed the use of the Water Quality Association's Certified Installer program as a foundation to the training and education elements of the licensure program.

PROCEDURAL HISTORY:

ATTACHMENTS: Proposed licensing rule

020. WATER CONDITIONING / TREATMENT SPECIALTY LICENSE.

The purpose of this section is to set out the special types of plumbing installations for which a water conditioning / treatment plumbing specialty license is required; to set out the minimum experience requirements for such licenses; and to describe the procedure for securing such licenses. (X-X-XX)

01. Qualified Journeyman Plumbers. Qualified journeyman plumbers as defined in Section 54-2611(b), Idaho Code, shall be permitted to make installations as subsequently described herein without securing an additional license for said installation. (X-X-XX)

02. Qualified Apprentice Plumbers. Qualified apprentice plumbers as defined in Section 54-2611(c), Idaho Code, shall be permitted to make installations as subsequently described herein without securing an additional license for said installation. (X-X-XX)

03. Minimum Experience Requirements. (X-X-XX)

a. Experience gained by an individual while engaged in the practice of water conditioning / treatment plumbing specialty shall not be considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman plumber. (X-X-XX)

b. Water conditioning / treatment plumbing specialty trainees must be registered with the Division of Building Safety, must be employed by a licensed contractor, shall not perform work except under the supervision of a journeyman, and be enrolled in the Water Quality Association (WQA) program or have completed Idaho Plumbing Board approved related training classes and maintain state registration. (X-X-XX)

c. Qualifications for Water conditioning / treatment plumbing specialty contractors. An applicant for a specialty contractor certificate of competency shall possess an active water conditioning / treatment journeyman certificate of competency issued by the Division, a provable minimum of two and one-half (2 ½) years' experience as a licensed specialty journeyman in the state of Idaho, hold a current Certified Water Specialist (CSW) certification, as well as provide payment to the Division for all applicable application and examination fees and successfully complete the contractor examination administered by the Division. The compliance bond required by Section 54-2606, Idaho Code, shall be required to be on file with the Division upon successful completion of the examination. The examination fee shall be as prescribed by Section 54-2614, Idaho Code. (X-X-XX)

d. Water conditioning / treatment plumbing specialty journeymen must have a minimum of three (3) months trainee on the job experience, hold a current Water Quality Association (WQA) certified installer certification and complete continuing education requirements as set forth by WQA. All qualified water conditioning / treatment plumbing specialty journeymen shall be

licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category. (X-X-XX)

04. Special Grandfathering Provision.

a. Contractor: In lieu of the two and one-half (2 ½) years minimum journeyman experience requirement, an individual may show proof of currently owning and operating a water conditioning / treatment business and provide proof of a current Certified Water Specialist (CWS) certification. This grandfathering provision is to expire January 1 the year following adoption of the rule by the legislature. (X-X-XX)

05. Applications for Specialty Licenses. Applications for the above specialty licenses may be obtained from the Division of Building Safety. The forms shall be returned with the examination fee provided by Section 54-2614, Idaho Code, with proof of the required experience in the field of this specialty. (X-X-XX)

06. Fees. Fees for certificates shall be required in accordance with Section 54-2616, Idaho Code. (X-X-XX)

07. Scope of Work Permitted. Permitted to disconnect, cap, remove, and reinstall: water conditioning equipment which includes, but not limited to water softeners, conditioners, whole house filtration systems, iron filters, chlorine filter, fluoride filters, sediment filters (self-cleaning and canister type), reverse osmosis filtration and other under counter water filtration systems: includes the ability to install water lines for the isolation of fixtures and water conditioning equipment installation only. Does not include installation, testing, or certifying of backflow prevention devices. Does NOT include any modification to the drain, waste or vent systems. Must comply with all Idaho plumbing laws and rules and the requirements of the Uniform Plumbing Code. (X-X-XX)

IDAHO PLUMBING BOARD

Agenda Item No. 05

School Curriculum

PRESENTER: Brown Mackie College

OBJECTIVE: Approve Brown Mackie College's curriculum for a plumbing apprenticeship program.

ACTION: Informational

BACKGROUND: The proposed program incorporates curriculum developed by the National Center for Construction Education and Research (NCCER) and includes content from all four levels combined in a diploma program that students can complete in one year.

The complete proposal is on the Division's website and can be viewed by clicking on the following link:

<http://dbs.idaho.gov/boards/PBboard/PBmeetings.html>

PROCEDURAL HISTORY:

ATTACHMENTS: Documentation from Brown Mackie College

July 2, 2015

Mr. John Nielsen, Program Manager, Plumbing
State of Idaho Division of Building Safety
1090 East Watertower Street, Suite 150
Meridian, Idaho 83642

Dear Mr. Nielsen:

Brown Mackie College – Boise is seeking board approval from the Idaho Division of Building Safety for an apprenticeship program in Plumbing. The proposed diploma program in Plumbing is designed to provide graduates with the skills necessary for entry-level positions in the plumbing and gas piping industries. The program provides students with an overview of the plumbing industry, necessary safety protocols, and knowledge-based skills relating to the installation and repair of plumbing systems. Students will also apply problem-solving skills in troubleshooting and repair of plumbing systems.

The proposed program incorporates curriculum developed by The National Center for Construction Education and Research (NCCER) and includes content from all four levels combined in a diploma program that students can complete in one year. At 930 total contact hours, the program exceeds the minimum required classroom hours to meet the state's schooling requirement for licensure.

Enclosed you will find the program description, objectives, curriculum outline, courses descriptions, a syllabus for each course in the program, an equipment list, and information regarding NCCER. Please contact me directly should you need additional materials or if you have any questions.

Thank you,

Christine Knouff
National Director of Strategic Operations
Brown Mackie College – Central Services
625 Eden Park Dr.
Cincinnati, OH 45202

cknouff@brownmackie.edu

cc:
Daniel Summer, Interim Campus President

Diploma: PLUMBING

The diploma program in Plumbing is designed to provide graduates with the skills necessary for entry-level positions in the plumbing and gas piping industries. The program is designed to provide students with an overview of the plumbing industry, necessary safety protocols, and knowledge-based skills relating to the installation and repair of plumbing systems. Students will also apply problem-solving skills in troubleshooting and repair of plumbing systems. The program incorporates curriculum developed by The National Center for Construction Education (NCCER).

Upon successful completion of the program, graduates should be able to:

- Use industry-standard terminology, tools, equipment, materials, and local code requirements in the installation, servicing, and repair of plumbing systems.
- Work safely in commonly encountered plumbing installation, repair, and maintenance situations.
- Use blueprints and drawings to interpret and verify information, properly request any necessary changes from other professionals on a project, and lay out systems and fixture rough-ins.
- Apply math concepts and make accurate calculations in commonly encountered plumbing situations.
- Employ customer service and project management skills in a variety of situations in the plumbing world.
- Perform as an ethical professional in the plumbing field.

and management skills will also be covered. In addition, students will be introduced to special plumbing systems, such as water recirculation, indirect waste, special waste, and hydronic and solar hot water heating and distribution systems. This course will include out-of-class work such as reading and writing assignments, practice and practical application assignments, and projects.

Prerequisites: PLU1702

PLU1801 **Codes and Specialized Plumbing Applications** (5 quarter credit hours)

This course will explore the relationships between local, state, and national plumbing codes, as well as the ways in which codes direct the work of a plumber. Students will be introduced to diagnosis and repair procedures for piping systems, fixtures, and appliances. Plumbing for recreational fixtures, such as pools, spas, and hot tubs, will also be covered. In addition, private well and waste systems, mobile home and park plumbing systems will be introduced. This course will include out-of-class work such as reading and writing assignments, practice and practical application assignments, and projects.

Prerequisites: PLU1702

PLU1802 **Customer Service, Project Management, and Advanced Safety** (6 quarter credit hours)

This course focuses on the use of electronic components and electrical controls for heating and cooling, motors, and processes. Wiring and programming of variable frequency drives and programmable logic controllers will also be covered. In addition, students will be introduced to the fundamentals of crew leadership. This course will include out-of-class work such as reading and writing assignments, practice and practical application assignments, and projects.

Prerequisites: PLU1702

PLU2900 **Externship in Plumbing and Exam Review** (4 quarter credit hours)

Students are assigned to work in a professional environment appropriate for the application of skills learned in the curriculum, thus gaining practical experience in the skills acquired. The externship requires 120 hours.

Prerequisites: Completion of all course requirements or departmental approval.

PSS1100 **Professional Development** (4 quarter credit hours)

Development of skills for collegiate success, including techniques for effective use of texts, productive studying and note taking, and success in tests and other assignments. The course also emphasizes professional expectations, communication skills, the use of technology in support of learning, academic policies and issues, time management, problem solving, and effective and ethical use of resources. This course will include out-of-class work such as reading and writing assignments, practice and practical application assignments, and projects.

IDAHO PLUMBING BOARD

Agenda Item No. 06 Code Changes -- 2009 UPC vs. 2015 UPC

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Discuss if the Plumbing Board would like to adopt the 2017 Idaho State Plumbing Code based on the 2015 Uniform Plumbing Code.

ACTION: Informational

BACKGROUND: May 2015 - When the Idaho State Plumbing Code (ISPC) was originally adopted under the 2009 Uniform Plumbing Code (UPC); there was discussion it would be updated every other cycle. The 2015 UPC is now available. Board Member Pond suggested going with the 2015 code since it is the most recent.

To consider the adoption of the 2015 UPC, the Plumbing Program Manager offered to provide a synopsis of changes made to the code at the July meeting.

IDAHO PLUMBING BOARD

Agenda Item No. 07 Water Pump Specialty Education Requirements

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Remove or change educational requirements for obtaining a Water Pump Specialty license.

ACTION: Informational

BACKGROUND: The members of the Idaho Ground Water Association have questioned the four years of schooling when currently there are no schools that have a 12-hour board approved training class.

PROCEDURAL HISTORY:

ATTACHMENTS: Current rule containing licensure requirement

IDAPA 07.02.05

019. WATER PUMP PLUMBING SPECIALTY LICENSE.

The purpose of this section is to set out the special types of plumbing installations for which a water pump plumbing specialty license is required; to set out the minimum experience requirements for such licenses; and to describe the procedure for securing such licenses. (7-1-99)

01. Qualified Journeyman Plumbers. Qualified journeyman plumbers as defined in Section 54-2611(b), Idaho Code, shall be permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

02. Qualified Apprentice Plumbers. Qualified apprentice plumbers as defined in Section 54-2611(c), Idaho Code, shall be permitted to make installations as subsequently described herein without securing an additional license for said installation. (7-1-99)

03. Minimum Experience Requirements. (7-1-99)

a. Experience gained by an individual while engaged in the practice of water pump plumbing specialty shall not be considered towards the satisfaction of the minimum experience requirements for licensing as a journeyman plumber. (7-1-99)

b. All qualified water pump plumbing specialty journeymen shall be licensed and be in the employ of a licensed plumbing contractor or specialty contractor limited to this category.

(7-1-99)

c. Water pump plumbing specialty contractors must have a two thousand dollars (\$2,000) surety bond, thirty (30) months minimum journeyman experience, and successful completion of water pump plumbing specialty contractor's test. (7-1-99)

d. Water pump specialty journeymen must have eighteen (18) months apprentice on-the-job experience, satisfactory completion of twelve (12) hours of Idaho Plumbing Board-approved, related training classes and successful completion of the water pump plumbing specialty journeyman's test. (7-1-99)

e. Water pump plumbing specialty apprentices must be employed by a licensed contractor, under the supervision of a journeyman, be enrolled in or have completed Idaho Plumbing Board-approved related training classes and maintain state registration. (7-1-99)

IDAHO PLUMBING BOARD

Agenda Item No. 08

Specialty Grandfathering

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: The Board to decide whether to leave the grandfathering provision in the rule as is, re-write or remove it.

ACTION: Informational

BACKGROUND: October 2014 – The Plumbing Program Manager brought forth this topic; asking the Board if it would like to leave, rewrite or remove the specialty plumbing appliance and specialty water pump grandfathering provisions in IDAPA 07.02.05 *Rules Governing Plumbing Safety Licensing*.

The following was suggested: 1) Provide education requirements for journeymen, and 2) Contractor exam should be based on standard business practices, and journeyman exam on code/field-related matters.

The Board approved a motion for the whole rule to be reviewed; specifically for verbiage to be added requiring journeymen to have training in order to install water heaters.

February 2015 - Board Member Pond made a motion to enter into negotiated rulemaking with the affected parties as it pertains to this specialty license, come to a consensus, and then move forward with the language. Dan Long seconded. All in favor, motion carried.

Rules Governing Plumbing Safety Licensing

Appliance Plumbing Specialty License

04. Special Grandfathering Provision. (7-1-99)

a. Contractor: In lieu of the thirty (30) months minimum journeyman experience requirement, an individual may use five (5) years experience of owning and operating a business where this specialty applies AND satisfactory completion of seventy-two (72) hours of Idaho Plumbing Board-approved related training classes. For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least five (5) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use five (5) years experience working for a business where this specialty applies. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least five (5) years. (7-1-99)

Appliance Plumbing Specialty License

04. Special Grandfathering Provision. (7-1-99)

a. Contractor: An applicant for a contractor certificate of competency who has never been previously licensed as a journeyman shall first obtain an Idaho journeyman certificate of competency in accordance with paragraph b. In lieu of the thirty (30) months minimum journeyman experience requirement, an individual may use five (5) years' experience of owning and operating a business where this specialty applies ~~AND satisfactory completion of seventy-two (72) hours of Idaho Plumbing Board-approved related training classes.~~ For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least five (5) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use five (5) years' experience working for a business where this specialty applies AND satisfactory completion of seventy-two (72) hours of Idaho Plumbing Board-approved related training classes. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least five (5) years. (7-1-99)

Water Pump Plumbing Specialty License

04. Special Grandfathering Provision. (7-1-99)

a. Contractor: In lieu of the thirty (30) month minimum journeyman experience requirement, an individual may use three (3) years experience of owning and operating a business where this specialty applies and satisfactory completion of twenty-four (24) hours of Idaho Plumbing Board-approved related training classes. For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least three (3) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use three (3) years experience working for a business where this specialty applies. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least three (3) years. (7-1-99)

Water Pump Plumbing Specialty License

04. Special Grandfathering Provision. (7-1-99)

a. Contractor: An applicant for a contractor certificate of competency who has never been previously licensed as a journeyman shall first obtain an Idaho journeyman certificate of competency in accordance with paragraph b. In lieu of the thirty (30) month minimum journeyman experience requirement, an individual may use three (3) years' experience of owning and operating a business where this specialty applies ~~and satisfactory completion of twenty four (24) hours of Idaho Plumbing Board approved related training classes.~~ For this purpose, a business is defined as an activity in which tax returns were required to be and have been filed for at least three (3) years. (7-1-99)

b. Journeyman: In lieu of the eighteen (18) months apprentice on-the-job experience requirement, an individual may use three (3) years' experience working for a business where this specialty applies and satisfactory completion of twenty-four (24) hours of Idaho Plumbing Board-approved related training classes. For this purpose, working for a business is defined as being issued a W-2 earning form from a related business or businesses for at least three (3) years. (7-1-99)

IDAHO PLUMBING BOARD

Agenda Item No. 09

Plumbing Program Manager Report

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Provide an update on the Plumbing program's current activities.

ACTION: Informational

BACKGROUND: This topic is addressed at all regularly scheduled Idaho Plumbing Board meetings.

The *Verification by All DBS Inspectors on Inspections Report* is not in the board packet due to its length. However, it is posted on the Plumbing Board page of the Division's website next to the July 22nd meeting under "Special Interest".

PROCEDURAL HISTORY:

ATTACHMENTS: 1) Plumbing Journeyman Survey; 2) Plumbing Journeyman First Exam Attempts Report; 3) Plumbing NOV 2nd Quarter 2015 Report; 4) Verification of Inspections, Plumbing Only, 2nd Quarter, 2015 Report; and, 5) Verification of Inspections Table, Plumbing Only, 2nd Quarter Report, 2015 Report.

Test: **Plumbing Journeyman**

in Class Plumbing

Question Text		Subject			
1 What is your gender?		<None>			
Response					
A	Male	80.00%	F		0.00%
B	Female	0.00%	G		0.00%
C		0.00%	H		0.00%
D		0.00%	I		0.00%
E		0.00%	J		0.00%
2 What is your age?		<None>			
Response					
A	18-21	0.00%	F	51-60	4.00%
B	22-25	4.00%	G	61 or more	0.00%
C	26-30	22.00%	H		0.00%
D	31-40	36.00%	I		0.00%
E	41-50	13.00%	J		0.00%
3 What is your race/ethnicity?		<None>			
Response					
A	American Indian or Alaska	2.00%	F	White (not of Hispanic origin): A p	71.00%
B	Asian: A person having ori	0.00%	G		0.00%
C	Black or African American (0.00%	H		0.00%

			House located at 1875 salem pines Fremont County
			I went to look at the fireplace, it was covered with sheetrock and painted, the front was open but could not look up. I failed the job, Clay sent me a text that evening. I called him in the morning at 7:14 and ask why it was covered the sheet rockers had covered it. The contractor was Ryan Bradshaw at 208 390 4438. He said he would open up a spot to see. I called Ryan Bradshaw and said the fireplace opening for the chimney needs to stay open until it has been inspected with a green tag. I said if it hasn't been inspected he is welcome to call me. They was all goo with hat. I also called the homeowner and told him I needed a space to see clearances, he was ok also.

	06/18/2015		I went to a job located 4025 Rasmussen Lane off hwy 20 past the H.L. outlet. The Owners name is Jeff CARMIGNANI
			. An addition to to an old house but not really connected. I looked at the sewer line it was 4" SCH. 40 to the septic tank, then reduced and only 3" going under the foundation. I ask if I could look inside at the plumbing, he said yes and went in with me. The house was all sheetrocked and painted. there was a bathroom group and then a clothes washer across the hall, it seemed pretty high. Out side through the roof there was only 2-2" vents through the roof, not enough to vent that plumbing. I ask him if he had a building permit, an electrical permit,, or a plumbing he said no to all the permits. He was a nice man and wantedd to comply. He said that Gene Sedick from St. Anthony Idaho did the plumbing and electrical work. His phone # is 208- 251- 3589
			The addition is about 17' x 32'
			In the exiting cabinfrom 1948 the kitchen just drais outside on the ground,

	05/18/2015		ACCIDENT
			18 May 2015 Backing out of my driveway, at about 8:43 a>m the neighbor backing up from accross the street hit my front passenger side door. I got his imformation, and had the police come over to ge a report. The police man was Tom Mattingly, It did not issue Ny citations but said it looked like ie was Angel Florses fault. I called Adam Bowcutt and he came up with another car he took mine to get some estaments. The car that hit me was going about 4- 5 mph, but sounded much harder. I sent the accident report to Adam Bowcutt, I have not yet recieved the police report.
	05/06/2015	COMPLIANCE	(5/6/2015 10:55 AM CHA)
	05/06/2015		ENFORCEMENT
			6 MAY 2015 Water line covered except for inside and the end of the trench. Blaine Nalder is the excavator HE is doing the sewer, I informed him not to cover it before inspection is complete. Location Island Park, Idaho 3324 Spur Cir. I called Chris Crister and ask him about Blain Naulder, he said he usally has something covered.
	05/01/2015	ADMIN TIME	(5/1/2015 3:23 PM CHA)
	05/01/2015		New house Turn at stoddard road, north of Spencer. From the freeway headed east for 5.3 miles, a brown gate on the south side of the road, a key is under a rock by the west railroad tie. THE garmin took me through kilgore, it was a long ride. Porcupine pass is a long road that reaches 7000 ft. It was 180 miles round trip, When a person goes take the freeway its faster. Beautiful country.
