The electrical contractors below have applied for and received an apprentice ratio adjustment. They have received the following instructions.

1. A ratio of more than two apprentices to one journeyman electrician is adjusted for the following companies. Adjusted ratio is listed below.
2. Apprentice above the two to one ratio shall have completed a minimum of two years of a board approved sequence of instruction and show proof of at least 4000 hours of work experience.
3. All apprentices shall be enrolled in or have successfully completed four years of apprenticeship training.
4. Weekly safety meetings will be held and documented.
5. Journeyman and all apprentices will be working in the same one and two family dwelling unit or apartment unit.

This exemption may be terminated at any time for cause.

This exemption is granted for one year from this date and may be extended if conditions warrant such extension.
