

Change Maintained Markings to 4 consecutive weeks.

Idaho Code 55-2205 (2)

Upon receipt of the notice provided for in this section, the underground facility owner or the owner's agent shall locate and mark its locatable underground facilities with reasonable accuracy, as defined in section 55-2202, Idaho Code, by surface-marking the location of the facilities. If there are identified but unlocatable underground facilities, the owner of such facilities or the owner's agent shall locate and mark the underground facilities in accordance with the best information available to the owner of the underground facilities. The owner of the underground facility or the owner's agent providing the information shall respond no later than two (2) business days after the receipt of the notice or before the excavation time set forth in the excavator's notice, at the option of the underground facility owner, unless otherwise agreed in writing by the parties. Excavators shall not excavate until all known facilities have been marked. Once marked by the owner of the underground facility, or the owner's agent, the excavator is responsible for maintaining the markings. Unless otherwise agreed in writing by the parties, maintained markings shall be valid for purposes of the notified excavation for a period no longer than ~~three (3)~~ **four (4)** consecutive weeks following the date of notification as long as it is reasonably apparent that site conditions have not changed so substantially as to invalidate the markings. If excavation has not commenced within ~~three (3)~~ **four (4)** weeks from the original notice to underground facility owners through the one-number notification service, the excavator shall reinitiate notice in accordance with this section.
