◆ **Requirement of All Foundations for Manufactured Houses to be Engineered and have an Engineers Stamp**

In April 2021, the Division sent a letter to all Idaho Licensed Manufactured Home Installers informing them of the manufacturers installation and Department of Housing and Urban Development (HUD) installation requirements for new homes; specifically, plans for permanent foundations must be designed and certified by a registered professional engineer or registered architect. DBS is the State Administrative Agency (SAA) for HUD. To ensure HUD guidelines are adhered to, the Division has been tasked with providing education and outreach to all Idaho cities and counties. When questioned about the difference between new and used homes, HUD only addresses new installations while the Idaho Installation Standard is for used units.

Teri Ottens, Idaho Manufactured Housing Association (IMHA), stated in accordance with the installation manuals, the International Residential Code (IRC) can be used. Currently, 80% of jurisdictions do not require engineered foundations, and are using the IRC. The question was asked if there is a way to build a template by utilizing an engineer DBS would accept as a standard for all manufactured homes. Ms. Ottens mentioned there was a possibility IMHA, with partners, could financially help to build a template dealers could use; creating an engineered foundation that works but does not impose additional costs to the consumer. DBS is receptive to a universal proposal.

◆ **Eliminate MFG Manufacturer's License / Bond from Statute / IDAPA Rules**

Under the Governor's Licensing Freedom Act, the Building Program has begun to review its statute and rules; verifying whether there are any regulatory burdens that prohibit individuals from working in the manufactured housing industry. Currently, manufacturers are certified through HUD. To the Division's knowledge, HUD does not require manufacturers to be licensed; however, it is the belief of DBS that licensing and bonding is considered regulatory burdens.

Chairman Alley questioned whether sales tax was being imposed by the Idaho Tax Commission on licensed manufacturers selling to retailers. There was an issue; however, it has been resolved. Retailers are charged sales tax at the point of sale. An IMHA Representative presented House Bill 32 to the 2021 Legislative Session; amending the existing law to revise provisions regarding the applicability of the sales and use tax to manufactured homes.

IMHA opposes the Division's proposal to remove manufacturer's licenses and bonds, citing a license is leverage when dealing with a dispute. HUD requires SSA to have a dispute resolution process; which is in Idaho law. DBS will research whether the dispute resolution process states a manufacturer must be licensed. Chairman Alley tabled this topic until further notice.

ACTION: The Division will research whether HUD requires manufacturers to be licensed.

◆ **Administrator Report**

Legislative Update – The legislature passed Senate Concurrent Resolution (SCR) 111, which allows the Senate and House to go into recess. The Governor has five days to veto any legislation submitted by the legislative body. Upon reconvening, legislators will have an opportunity to override any vetoed bills.

The Senate passed SCR 108; reauthorizing all fee rules with the following exceptions: 1) Contractor registration, 2) Electrical journeyman to apprentice ratio and supervision, and 3) Agricultural. Upon resuming the session, the House will need to approve the SCR for it to become effective.

Senate Bills 1024 and 1026 (effective July 1st), and 1056 (effective April 14th) were signed into law. DBS is officially under the Division of Occupational and Professional Licenses (DOPL).

House Bill 346 relates to DOPL’s appropriation for fiscal year 2022. There has been reassurance the Board’s funds will stay intact with no intermingling.

Financial Report – Fiscal Year 2021 ends June 30th. Projected revenue through March 2021, is 133 percent of what DBS budgeted, and 106 percent for expenditures.

Permit Activity – The first four months of 2021 are 19 percent higher than 2020’s first four months, and 2020 is ten percent higher than 2019.

◆ **Omnibus Temporary Rule Chapter Proposal--IDAPA 24.39.31, 24.39.32, 24.39.33 and 24.39.34**

With the legislature not reauthorizing rules, the Division was given an opportunity to review the current rules and provide additional suggestions to comply with the Governor’s Red Tape Reduction Act before the Governor authorizes temporary rules that will go into effect July 1, 2021.

Portions of the modular building and manufactured home rules were in the building rules by error. The recommended changes were to transfer the language from the building rules to IDAPA 24.39.31 *Rules for Modular Buildings* and IDAPA 24.39.33 *Rules Governing Manufactured/Mobile Home Industry Licensing*. Duplicative wording was also removed from the same rules.

The changes have been vetted by the Division of Occupational and Professional Licenses and the Division’s legal counsel. Included in the packet are the temporary omnibus rule chapters as they will appear upon approval by the Governor.

Building Program Supervisor Lisa Stover asked if there were any questions. Chairman Markus Alley also asked if anyone on teleconference had any questions. Matt Durée, Kit Home Builders, stated he had requested a copy of the proposal by email but never received it. It was confirmed staff had received Mr. Durée’s email; however, were working to complete today’s proposal. It was explained the agenda and packet are on the Division’s website.

The Chairman asked two more times if there were any more questions or comments. Deputy Attorney General Spencer Holm commented that the agenda states the Board to rescind and adopt IDAPA 24.39.31, .32, .33, and .34. The Administrator has the authority over IDAPA 24.39.32 and

.34, not the Board. Therefore, the Board cannot rescind or adopt those two chapters. Hearing no further comments by stakeholders or board members, the meeting proceeded to the action items.

◆ **Vote to Rescind Existing Temporary Rule Chapter--IDAPA 24.39.31, 24.39.32, 24.39.33 and 24.39.34**

Based on Deputy Attorney General Holm’s comment, the Chairman asked for a motion to rescind the existing temporary rule chapters IDAPA 24.39.31, and 24.39.33 only.

MOTION: Mike Hampton so moved. Ken Roche seconded. All in favor, motion carried.

◆ **Vote to Adopt Temporary Omnibus Rule Chapter--IDAPA 24.39.31, 24.39.32, 24.39.33 and 24.39.34**

The Chairman stated there would need to be a motion to adopt the temporary omnibus rule chapters IDAPA 24.39.31 and 24.39.33. The Building Program Supervisor asked if there were any specific questions. Hearing none, it was explained if there was duplicative language in the Factory Built Structures statutes, it was struck from the rules.

It was reiterated language in the building rules pertaining to the modular buildings and manufactured/mobile home industry have been removed and relocated to IDAPA 24.39.31 and 24.39.33.

Chairman Alley read the following motion: “Pursuant to Section 67-5226, Idaho Code, the Governor has found that temporary adoption of these rules are appropriate to protect the public health, safety, and welfare of the citizens of Idaho, and confer a benefit on its citizens. These rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety, and welfare of the citizen of Idaho and deprive them of the benefit intended by these rules. Therefore, we are adopting these temporary rules to be effective upon July 1, 2021. We are also rescinding our existing temporary rule with an effective date of July 1, 2021.”

MOTION: Mike Hampton so moved. Brian Mattson seconded. All in favor, motion carried.

◆ **Adjournment**

The Chairman asked for a motion to adjourn the meeting.

MOTION: Mike Hampton so moved. Ken Roche seconded. All in favor, motion carried.

The meeting adjourned at 11:48 a.m. (MDT).

Agenda Item No. 04

Consolidation of Rule Chapters

PRESENTER: Michael Hyde, HVAC Program Manager

OBJECTIVE: Approve the consolidation & red tape reduction of rule chapters.

Re: Brick and Mortar Requirement

At the last FBS Board meeting the issue of out-of-state retailers having brick and mortar facilities within Idaho came up. There was discussion on the need for this requirement and how it could be enforced.

We recently were informed that DBS will be sending out notices to all to begin enforcing this provision and we appreciate that.

At our last IMHA board meeting this topic was discussed in detail. We based our discussion on what we thought made sense and what would be best in protecting Idaho residents and retailers. After discussion of several options we determined that as an industry we really do not object to out-of-state retailers selling within Idaho without a brick and mortar location, but that they indeed do need to be licensed by the state and that there should be some bar set for that license. It was noted that several other states (in fact many surrounding Idaho) have a testing requirement.

The board moved to support this testing option and directed our lobbyist, Jack Lyman, to work on potential language changes to state law.

We would like to discuss this at the next FBS Board meeting to get your input and gauge your support for the change. We plan to pursue this in the next legislative session.

We respectfully request to be placed on the next agenda for consideration of this issue.

Engineered Permanent Foundation Issue

Re: Permanent Foundation Requirement

At the last FBS Board meeting a discussion of a permanent foundation engineering requirement being implemented by DBS was held. IMHA discussed the concerns that this requirement raises including:

- Raising the cost of each MH by \$500-\$1000 affecting the 'affordability' of it
- Time issues with requiring an engineer to design each foundation individually
- The fact that the majority of city and counties have indicated they are not and will not be requiring this – creating different standards for different areas

The IMHA Board discussed this at their board meeting and would like to request the consideration of three options to alleviate the costs of this requirement while meeting DBS's intent:

- Develop a standard similar to the Installation Manual for new home foundations (or allow that already developed standard to be utilized for new homes). Currently the Installation Manual only applies to used homes but has a foundation standard in there that can be built without engineering. As was pointed out at the FBS Board meeting, there are no real differences between used and new home foundations. It may take a slight change in the rules (changing the foundation requirement from following manufacturer's specs to following the Installation Manual or IRC) but seems to make better sense than imposing a standard that is expensive and not enforced throughout Idaho
- Allow the IRC foundation standards to be used without engineering (the Installation Manual already gives this as an option). This option is what most other jurisdictions are doing. This also would require a slight rule change.
- Explore a 'standard' engineering plan that can be adapted to new homes based upon size – this is our last preferred option and may not be possible as an engineer would be taking on some risks but we would like to explore it.

We are thinking that a committee chaired by DBS and with industry members could sit down and work towards a recommendation that works for all and would like to get board input on authorizing staff time.
