Thursday, March 19, 2020

9:30 a.m. – 1:30 p.m. (MDT)

8:30 a.m. – 12:30 p.m. (PDT)

9:30 a.m. CALL TO ORDER – Matt Gardner, Chairman

- Roll Call & Introductions
- Open Forum
 - City and County Concerns

CONSENT AGENDA

1. Approval of the March 19, 2020 Agenda, February 12, 2020 Special Meeting Minutes and January 16, 2020 Meeting Minutes – Matt Gardner

ACTION AGENDA

2. Plumbing Apprentice Testing Standards – John Nielsen, Program Manager
3. Practical Exam – John Nielsen

INFORMATIONAL AGENDA

4. Plumbing Apprentice Course – Porter House, Inc.
5. Jurisdictions Checking Licensure – Garret Christoffersen, City of Idaho Falls
6. Definition of Bathroom Group – John Nielsen

7. Proposed Code Changes--Water Heaters – John Nielsen
8. Program Manager Report – John Nielsen
 - Clarification of Apprentice Hours
9. Compliance Program Report – Amy Kohler, Compliance Program Specialist
10. Administrator Report – Chris L. Jensen, Administrator
 - Financial Report

1:30 p.m. ADJOURN

For additional agenda information, refer to the packet, available one week prior to this meeting, at the DBS's central and regional offices and <https://dbs.idaho.gov/boards/pbboard/pbmeetings.html>.

All times, other than beginning, are approximate and scheduled according to Mountain Daylight Time (MDT), unless otherwise noted. Agenda items may shift depending on the Idaho Plumbing Board's preference. 03/03/2020r

DRAFT MINUTES OF THE FEBRUARY 12, 2020 SPECIAL MEETING

NOTE: The following report is not a verbatim transcript of the discussions at the meeting; however, is intended to record the significant features of those discussions.

Chairman Matt Gardner called the special meeting to order at 10:00 a.m. (MST)

Board Members Present:

Chairman Matt Gardner
Rick Garrett
John Kierce
Bob King

DBS Staff Members Present:

Chris L. Jensen, Administrator
Ron Whitney, Deputy Administrator
Patrick J. Grace, Regional Manager, Region 2
Adam Bowcutt, Regional Manager, Region 3
Chuck Knapp, Regional Supervisor, Region 1
John Nielsen, HVAC Program Manager
Renee Bryant, Administrative Assistant 2

◆ **Authorize Notice of Adoption of Temporary Rule Regarding IDAPA 07.07.01**

At the adjournment of the 2019 Legislative Session, a concurrent resolution to extend the current administrative rules was not approved; therefore, all agencies with governing boards/commissions had to approve the re-adoption of their rules. In anticipation of the possibility of it happening again, the Board has been asked by the Governor's office to once more approve the re-adoption of their rules. The temporary rules are conditional and will only become effective at sine die if the pending rules are not approved or rejected by the 2020 Legislature.

Based on the memorandum provided by the Division, and specifically the Governor's findings concerning the adoption of temporary rules, the following motion was made.

MOTION: Rick Garrett made a motion to accept the authorization for the adoption of the temporary rules, 07.02.02, as related to the Plumbing Board. John Kierce seconded. All in favor, motion carried.

Upon further discussion, Board Member Garrett amended his motion to include that on behalf of the Board, the Administrator has the authority to make/approve all notices and filings under the rulemaking process.

AMENDED MOTION: Rick Garrett amended the motion to include the Board delegate to the Administrator the authority to make and approve all notices and filings under the rulemaking process. John Kierce seconded. All in favor, motion carried.

◆ **Adjournment**

MOTION: John Kierce made a motion to adjourn the meeting.

The meeting at 10:07 a.m. (MST)

MATT GARDNER, CHAIRMAN
IDAHO PLUMBING BOARD

CHRIS L. JENSEN, ADMINISTRATOR

1250 Ironwood Drive, Suite 220, Coeur d'Alene
155 North Maple Street, Blackfoot**

***DRAFT MINUTES OF THE JANUARY 16, 2020 MEETING**

NOTE: The following report is not intended to be a verbatim transcript of the discussions at the meeting but to record the significant features of those discussions.

Chairman Matt Gardner called the meeting to order at 9:31 a.m. (MST)

Board Members Present:

Matt Gardner, Chairman
Gilbert Pond, Vice-Chairman
Rick Garrett
Bob King
John Kierce

DBS Staff Members Present:

Chris L. Jensen, Administrator
Ron Whitney, Deputy Administrator
Spencer Holm, Deputy Attorney General
John Nielsen, Plumbing Program Manager
Adam Bowcutt, Regional Manager, Region 3
Gary Sonnen, Regional Supervisor, Region 1
Amy Kohler, Compliance Program Specialist

◆ **Acknowledgement**

Bob King and John Kierce, At-Large Representatives, were welcomed to the Board.

◆ **Open Forum**

City/County Concerns – Through DBS, Garret Christoffersen, City of Idaho Falls Plumbing/Mechanical Inspector, asked the topic *Jurisdictions Checking Licensure* be placed as an informational item on the agenda for the next board meeting. The City of Idaho Falls interpretation of the statute is the city does not have the authority nor responsibility to check licenses on job sites within the city limits, only the state.

ACTION: The topic *Jurisdictions Checking Licensure* to be placed on the March 19, 2020 board meeting agenda as an informational item.

Definition of Bathroom Group – Steve Bennett, College of Western Idaho, asked the Board to consider amending the definition of “Bathroom Group” in the 2017 Idaho Code as it makes horizontal wet venting a very questionable proposition; affecting the first part of horizontal wet venting where it says a bathroom group can be horizontally wet vented. The 2017 code reads, “Any combination of fixtures, not to exceed one water closet, two lavatories, either one bathtub or one combination bath/shower, and one shower, and may include a bidet and an emergency floor drain.” The definition in the 2009 Idaho Code is a three-fixture minimum. Mr. Bennett recommended replacing the definition in the 2017 Idaho Code with the definition from the 2009 Idaho Code, removing the word “urinal”.

Plumbing Program Manager John Nielsen agreed the definition of “Bathroom Group” could be more clearly defined; however, would not remove urinals. His interpretation of a horizontal wet vent in a bathroom group is a bathtub or tub/shower, toilet, and lavatory, beyond that additional fixtures can be added.

With no objections from the Board, the topic *Definition of Bathroom Group* will be placed as an informational item on the agenda for the next meeting.

ACTION: The topic *Definition of Bathroom Group* to be placed on the March 19, 2020 board meeting agenda as an informational item.

♦ **Approval of the January 16, 2020 Agenda, September 19, 2019 Meeting Minutes and October 2, 2019 Special Meeting Minutes**

MOTION: Gilbert Pond made a motion to approve the agenda and meeting minutes as presented. Rick Garrett seconded. All in favor, motion carried.

♦ **IDAPA 07.02.05 Mobile Home Installer Licensing**

This is in conjunction with a statute change being ran at the 2020 Legislature to eliminate the mobile home set-up or installer license from the plumbing rule as they are regulated for licensure in their own statute. Upon approval of the change in statute, a proposed rule change, provided in the packet, will be submitted to the 2021 Legislature. Although mobile home set-up or installers will no longer be required to obtain a plumbing license, they will still be able to pull permits to get their mobile home connections.

Upon sine die of the 2020 Legislature, end of March, Plumbing Program Manager Nielsen will begin the process of negotiated rulemaking. Therefore, the topic *IDAPA 07.02.05 Mobile Home Installer Licensing* does not need to be placed on the agenda for the March 19, 2020 board meeting.

♦ **Practical Exam**

There has been no progress made on this issue. Individuals taking a four-year school program in Idaho have an option to take the practical exam; however, those from out-of-state do not. Mark Hosick, UA Local 296, brought forth a drawing where the individual must draw, electronically or on paper, the building by code. This type of practical could be done the same day they take their journeyman test from one of the Division’s three office locations.

Board Members Rick Garrett and Gilbert Pond support the possibly of moving the drawing to the practical portion of the journeyman test. The practical is already in rule; therefore, it would require changing the practical exam from out in the field and putting fixtures together to a paper/electronic drawing.

Board Member Gilbert Pond stated it would be beneficial to have at least one subcommittee meeting to review any ideas and/or drawings prior to the March 2020 board meeting. Several audience members, including Board Member Pond, offered to participate on the subcommittee.

Board Member John Kierce offered, and the Chairman agreed, to provide the board members with copies of the drawing shown by Mr. Hosick.

Deputy Attorney General Spencer Holm clarified for the Board to direct the Division to make changes to the practical exam, the topic *Practical Exam* will need to be placed as an action item on the March 2020 board meeting agenda.

ACTION: The topic *Practical Exam* to be placed on the March 19, 2020 board meeting agenda as an action item.

♦ **Apprentices--Proof of Employment and Schooling**

A question has been brought up that the way the plumbing rule reads it can be interpreted that anybody could show 16,000 hours and be able to sit for the journeyman exam. Currently, if an individual wants to come in and register as an apprentice, they are not required to show they are working for anyone. An individual can also go to school and not be registered. However, once school is completed, they must come in and show four years of on-the-job-training in Idaho. This issue has also been broached to the HVAC Board where it was argued the 16,000 hours is in the journeyman qualifications portion of the licensure rules for out-of-state individuals under the title Out of State Journeyman Applications. It was explained titles do not hold any authority nor are the law.

For the next meeting, the Board asked the Plumbing Program Manager to meet with the Deputy Attorney General to define the appropriate apprentice hours, as well the qualifies for instate and out-of-state individuals to take the journeyman test.

ACTION: The topic *Clarification of Apprentice Hours* to be placed on the March 19, 2020 board meeting agenda under the Plumbing Program Manager Report.

♦ **Inspectors Working in the Trade**

At the September 2019 meeting, there was concern a city/county inspector was running their business, as well as providing plumbing services, in the city/county they were employed; causing concern of a conflict of interest. Statute does not allow DBS inspectors to practice or work in the trade. A request was to change the statute to include city/county inspectors; however, the statute only pertains to DBS inspectors. Teri Ottens, Idaho Association of Building Officials (IDABO) Representative, explained IDABO has a conflict of interest statute that says you can't work in your own jurisdiction. You can have a business, you can do work outside your jurisdiction, but you can't within. Also, having worked for the Association of Idaho Cities, Ms. Ottens stated almost every city has a policy that says if you do outside work you have to get permission from the city. It was suggested the individual in question contact IDABO. Hearing no further discussion, Chairman Gardner tabled this topic until further notice.

♦ **Program Manager Report**

Legislation – A statute change regarding the 24-month expiration date upon a license expiring is at the 2020 Legislature. Upon approval, and to coincide with statute, the Division will submit the proposed rule change to the 2021 Legislature Session.

Proposed Code Change-Water Heaters – The Plumbing Program Manager has spoken to Dan Ediger, City of Boise Plumbing Inspection Supervisor. The Uniform Plumbing Code is vague when it comes to allowing appliances to be placed in front of water heaters. At the March 2020 Board meeting, Mr. Ediger would like to discuss the possibility of a code change; restricting appliances from being in front of water heaters.

ACTION: The topic *Proposed Code Change-Water Heaters* to be placed on the March 19, 2020 board meeting agenda as an informational item.

◆ **Compliance Program Report**

A new full-time compliance/outreach advisor has been hired to check licenses in all jurisdictions. The Division's approach is to try to get everyone in compliance; however, anyone refusing to comply or are habitual offenders will be dealt with more severely. Compliance Program Specialist Amy Kohler continues to receive positive feedback with having an advisor in the field on a regular basis.

◆ **Administrator Report**

Financial Report – The finances are in good condition and continue to grow due to the busy construction environment.

Budget – Returning from the budget setting with the Joint Finance-Appropriations Committee, the Administrator stated the two big issues discussed were compliance and licensing. In the budget is the request for two additional full-time compliance advisors; one for north Idaho and one for eastern Idaho.

Violations – Noting there was a contractor with 12 fines in the PLB% NOV Activity by Date Report, Board Member Pond questioned the next course of action on a repeat offender. At this time, there is no further action; however, this is being discussed by the Division for all three trades, plumbing, electrical and heating, ventilation and air conditioning, to determine when a license should be revoked. Issues with safety are considered gross violations and DBS will take away licenses. One suggestion was to issue a stop work notice to the general contractor on the subcontractor with the violation; removing them from the job site the remainder of the day.

◆ **Adjournment**

MOTION: John Kierce made a motion to adjourn the meeting. Gilbert Pond seconded.

The meeting adjourned at 10:48 a.m. (MST)

CONTENT STANDARD 3.0: FITTINGS, PIPE, AND VALVES**Performance Standard 3.1: Fittings and Valves**

- 3.1.1 Identify the proper fittings and/or valves for specific systems.
- 3.1.2 Apply the various fittings and valves by type, size, materials and application.

Performance Standard 3.2: Types of Pipe

- 3.2.1 Identify the common types of pipes.
- 3.2.2 Identify the proper pipes for specific systems.

CONTENT STANDARD 4.0: INDUSTRY MATH**Performance Standard 4.1: Applied Mathematics**

- 4.1.1 Determine center-to-center and end-to-end lengths for parallel offsets.
- 4.1.2 Calculate the travel for a rolling offset.
- 4.1.3 Solve for end-to-end lengths of pipe.
- 4.1.4 Calculate area, water volumes, weights, and gallons for various geometric shapes.
- 4.1.5 Explain pressure measurement in terms of Pounds per Square Inch (PSI) and inches of mercury.
- 4.1.6 Perform angular, length, and converted temperature measure calculations.
- 4.1.7 Calculate material expansion and/or volume related to heat.

CONTENT STANDARD 5.0: THE UNIFORM PLUMBING CODE (UPC)**Performance Standard 5.1: The Uniform Plumbing Code (UPC)**

- 5.1.1 Identify proper code terminology.
- 5.1.2 Identify general plumbing requirements for hanging and securing piping.
- 5.1.3 Identify plumbing fixtures.
- 5.1.4 Perform water heater sizing, combustion air calculations, vent sizing, and installation.
- 5.1.5 Perform water pipe sizing calculations.
- 5.1.6 Explain when and what type of backflow prevention devices, assemblies, and methods are required.
- 5.1.7 Perform drain and waste pipe sizing calculations.
- 5.1.8 Perform indirect waste installation and usage.
- 5.1.9 Describe venting systems (horizontal, vertical wet venting, etc.).

- 5.1.10 Identify proper use of traps and interceptors.
- 5.1.11 Perform proper storm drain sizing and calculations.
- 5.1.12 Perform fuel gas sizing calculations.
- 5.1.13 Identify proper fire-stop installation.
- 5.1.14 Identify the proper use of gray water, reclaimed water, and rainwater systems.
- 5.1.15 Utilize appendices and reference standards.
- 5.1.16 Apply IDAPA Plumbing rules and statutes (Title 54).

CONTENT STANDARD 6.0: CONSTRUCTION DOCUMENTS**Performance Standard 6.1: Isometric Drawings**

- 6.1.1 Identify the various plumbing symbols and abbreviations.
- 6.1.2 Complete an isometric drawing with proper symbols.
- 6.1.3 Develop materials list based on isometric drawings.

Performance Standard 6.2: Plan Reading

- 6.2.1 Describe basic plumbing symbols, abbreviations, and specifications.
- 6.2.2 Explain how the specifications relate to the plan.
- 6.2.3 Identify the necessary requirements and locations to install the plumbing fixtures and plumbing appurtenances.
- 6.2.4 Describe the coordination of trades on the job site.
- 6.2.5 Recognize site plan, floor plans, elevations, sectional views, details, and schedules.
- 6.2.6 Locate specific information on building plans.

CONTENT STANDARD 7.0: KNOWLEDGE OF RELATED INDUSTRIES**Performance Standard 7.1: Knowledge of Related Industries**

- 7.1.1 Explain how to use alternating-current meters and instruments in the pipe trades.
- 7.1.2 Apply basic building codes.

CONTENT STANDARD 8.0: CUT AND JOIN PIPES**Performance Standard 8.1: Cut and Join Pipes**

- 8.1.1 Join different types of pipes (including PVC, galvanized, steel, plastic, copper, and cast-iron pipes).
- 8.1.2 Measure, mark, and cut different types of pipes using various pipe cutters.
- 8.1.3 Thread a steel pipe with a power-driven vise stand or a pipe-threading machine.

CONTENT STANDARD 9.0: MAINTENANCE AND REPAIR**Performance Standard 9.1: Maintenance and Repair**

- 9.1.1 Diagnose water heater problems (e.g. gas, electric, tankless).
- 9.1.2 Identify repairs for residential fixtures.
- 9.1.3 Identify repairs for commercial fixtures.

CONTENT STANDARD 1.0: INTRODUCTION TO THE PLUMBING PROFESSION**Performance Standard 1.1: Introduction to the Plumbing Profession**

- 1.1.1 Describe Idaho Plumbing Code and Administrative Rules requirements.
- 1.1.2 Identify the basic principles on which plumbing is based.
- 1.1.3 Identify and maintain licensing, certification, and industry credentialing requirements.

CONTENT STANDARD 2.0: PLUMBING SAFETY**Performance Standard 2.1: Plumbing Safety**

- 2.1.1 Complete OSHA 10 Certification.
- 2.1.2 Identify common unsafe acts and conditions that cause accidents and how to handle these situations to make them safer.
- 2.1.3 Identify job site hazards – work specific to plumbers.
- 2.1.4 Complete First Aid and CPR Certification.
- 2.1.5 Use appropriate fire extinguishers and other safety devices.

CONTENT STANDARD 3.0: FITTINGS, PIPE, AND VALVES**Performance Standard 3.1: Fittings and Valves**

- 3.1.1 Identify the proper fittings and/or valves for specific systems.
- 3.1.2 Apply the various fittings and valves by type, size, materials and application.

Performance Standard 3.2: Types of Pipe

- 3.2.1 Identify the common types of pipes.
- 3.2.2 Identify the proper pipes for specific systems.

CONTENT STANDARD 4.0: INDUSTRY MATH**Performance Standard 4.1: Applied Mathematics**

- 4.1.1 Determine center-to-center and end-to-end lengths for parallel offsets.
- 4.1.2 Calculate the travel for a rolling offset.
- 4.1.3 Solve for end-to-end lengths of pipe.
- 4.1.4 Calculate area, water volumes, weights, and gallons for various geometric shapes.
- 4.1.5 Explain pressure measurement in terms of Pounds per Square Inch (PSI) and inches of mercury.
- 4.1.6 Perform angular, length, and converted temperature measure calculations.
- 4.1.7 Calculate material expansion and/or volume related to heat.

CONTENT STANDARD 5.0: THE UNIFORM PLUMBING CODE (UPC)**Performance Standard 5.1: The Uniform Plumbing Code (UPC)**

- 5.1.1 Identify proper code terminology.
- 5.1.2 Identify general plumbing requirements for hanging and securing piping.
- 5.1.3 Identify plumbing fixtures.
- 5.1.4 Perform water heater sizing, combustion air calculations, vent sizing, and installation.
- 5.1.5 Perform water pipe sizing calculations.
- 5.1.6 Explain when and what type of backflow prevention devices, assemblies, and methods are required.
- 5.1.7 Perform drain and waste pipe sizing calculations.
- 5.1.8 Perform indirect waste installation and usage.

- 5.1.9 Describe venting systems (horizontal, vertical wet venting, etc.).
- 5.1.10 Identify proper use of traps and interceptors.
- 5.1.11 Perform proper storm drain sizing and calculations.
- 5.1.12 Perform fuel gas sizing calculations.
- 5.1.13 Identify proper fire-stop installation.
- 5.1.14 Identify the proper use of gray water, reclaimed water, and rainwater systems.
- 5.1.15 Utilize appendices and reference standards.
- 5.1.16 Apply IDAPA Plumbing rules and statutes (Title 54).

CONTENT STANDARD 6.0: CONSTRUCTION DOCUMENTS

Performance Standard 6.1: Isometric Drawings

- 6.1.1 Identify the various plumbing symbols and abbreviations.
- 6.1.2 Complete an isometric drawing with proper symbols.
- 6.1.3 Develop materials list based on isometric drawings.

Performance Standard 6.2: Plan Reading

- 6.2.1 Describe basic plumbing symbols, abbreviations, and specifications.
- 6.2.2 Explain how the specifications relate to the plan.
- 6.2.3 Identify the necessary requirements and locations to install the plumbing fixtures and plumbing appurtenances.
- 6.2.4 Describe the coordination of trades on the job site.
- 6.2.5 Recognize site plan, floor plans, elevations, sectional views, details, and schedules.
- 6.2.6 Locate specific information on building plans.

CONTENT STANDARD 7.0: ADA GUIDELINES

Performance Standard 7.1: ADA Guidelines

- 7.1.1 Identify the necessary requirements according to ADA standards.

CONTENT STANDARD 8.0: KNOWLEDGE OF RELATED INDUSTRIES

Performance Standard 8.1: Knowledge of Related Industries

- 8.1.1 Explain how to use alternating-current meters and instruments in the pipe trades.
- 8.1.2 Apply basic building codes.

CONTENT STANDARD 9.0: CUT AND JOIN PIPES

Performance Standard 9.1: Cut and Join Pipes

- 9.1.1 Join different types of pipes (including PVC, galvanized, steel, plastic, copper, and cast-iron pipes).
- 9.1.2 Measure, mark, and cut different types of pipes using various pipe cutters.
- 9.1.3 Thread a steel pipe with a power-driven vise stand or a pipe-threading machine.

CONTENT STANDARD 10.0: MAINTENANCE AND REPAIR

Performance Standard 10.1: Maintenance and Repair

- 10.1.1 Diagnose water heater problems (e.g. gas, electric, tankless).
- 10.1.2 Identify repairs for residential fixtures.
- 10.1.3 Identify repairs for commercial fixtures.

CONTENT STANDARD 1.0: INTRODUCTION TO THE PLUMBING PROFESSION**Performance Standard 1.1: Introduction to the Plumbing Profession**

- 1.1.1 Describe Idaho Plumbing Code and Administrative Rules requirements.
- 1.1.2 Identify the basic principles on which plumbing is based.
- 1.1.3 Identify and maintain licensing, certification, and industry credentialing requirements.

CONTENT STANDARD 2.0: PLUMBING SAFETY**Performance Standard 2.1: Plumbing Safety**

- 2.1.1 Complete OSHA 10 Certification.
- 2.1.2 Identify job site hazards – work specific to plumbers.

- 9.1.3 Thread a steel pipe with a power-driven vise stand or a pipe-threading machine.

IDAHO PLUMBING BOARD

Agenda Item No. 03

Practical Exam

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Revamp the practical exam to be more consistent throughout the state.

ACTION: Board to direct the Division to make changes to the practical exam

BACKGROUND: September 2019 – In the packet was the current rule with portions pertaining to the practical exam underlined. Prior to the meeting, a subcommittee was to discuss this topic; however, never met. Board Member Gilbert Pond has requested pictures of Utah's practical exam; offering to make a presentation at a future meeting on why there needs to be a practical exam. For consistency throughout the state, following were suggestions: 1) Bring back the plan of a four-story building as part of the practical, 2) Take the written and practical exams on the same day, at/near the same location, and 3) Bring the exams, paper or computer based, inhouse at DBS. Board Member Pond suggested, and the Plumbing Program Manager agreed, to chair a committee, which will include individuals from the unions, industry, schools and DBS. The Chairman asked to proceed with this topic at the January 2020 Board meeting.

January 2020 – Individuals taking a four-year school program in Idaho have an option to take the practical exam; however, those from out-of-state do not. Brought forth was a drawing where the individual must draw, electronically or on paper, the building by code. This type of practical could be done the same day they take their journeyman test from one of the Division's three office locations. The practical is already in rule; therefore, it would require changing the practical exam from out in the field and putting fixtures together to a paper/electronic drawing. Board Member Gilbert Pond stated it would be beneficial to have at least one subcommittee meeting to review any ideas and/or drawings prior to the March 2020 board meeting. Several audience members, including Board Member Pond, offered to participate on the subcommittee. Deputy Attorney General Spencer Holm clarified for the Board to direct the Division to make changes to the practical exam, the topic *Practical Exam* will need to be placed as an action item on the March 2020 board meeting agenda.

ATTACHMENTS: Drawings

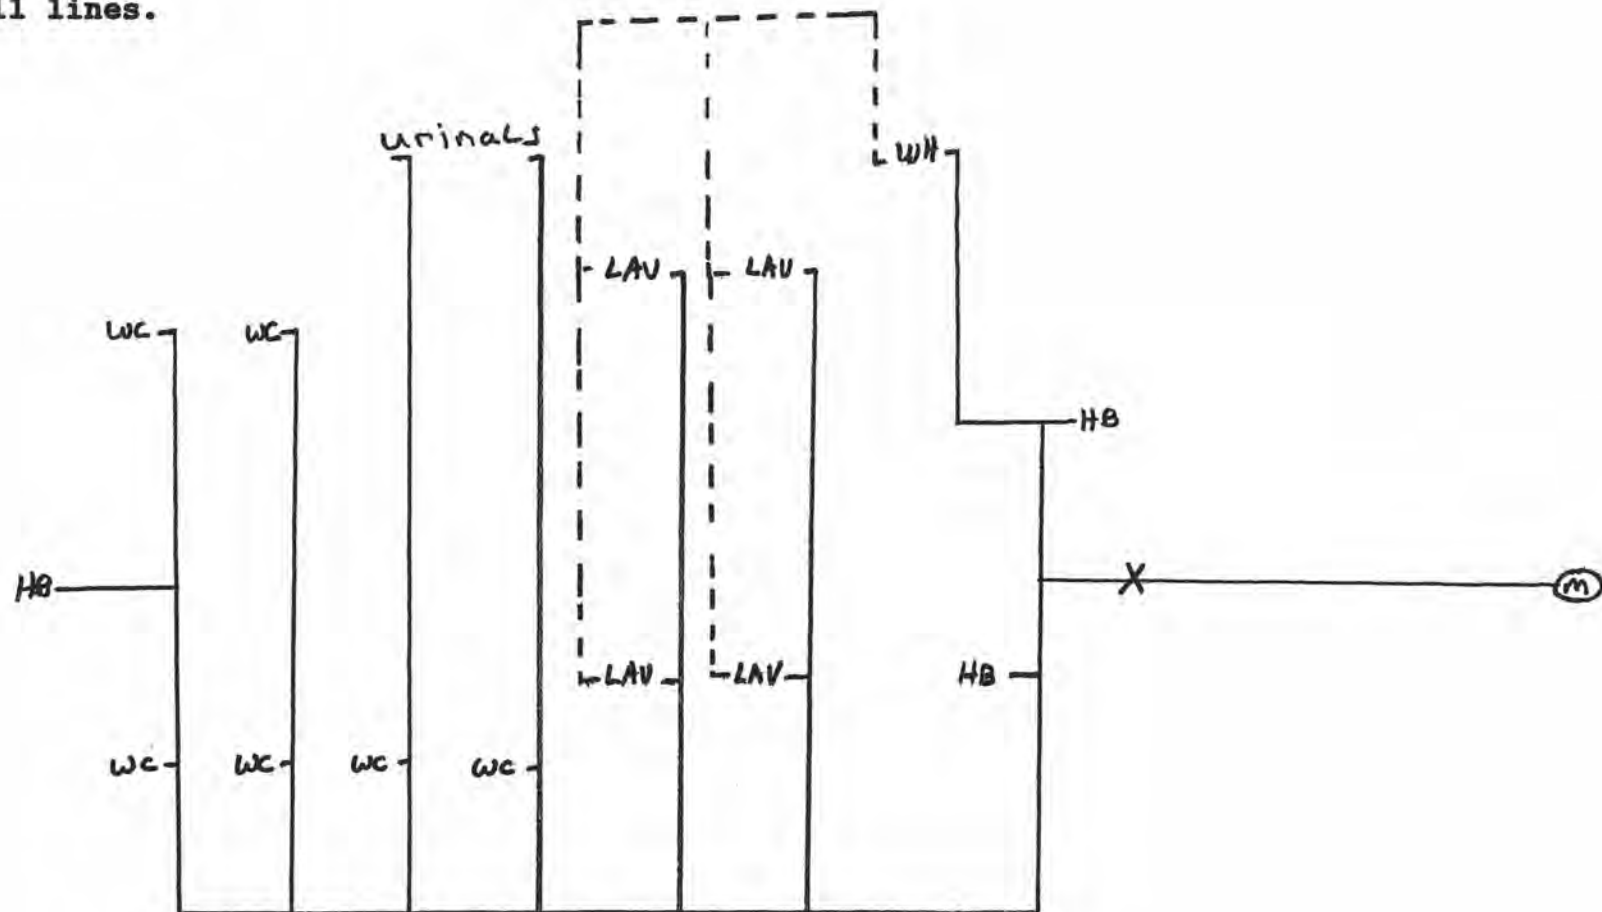

- Slab
- Size
 - put in c/o's
 - correct any code violations
 - tie in pipes/not connected

24,650 sq. ft. roof 6 roof drains (equal areas)
4"/hr. max fall
size and list materials legal to be used

Developed Length = 100 ft.
Water Pressure = 62 psi min. to 105 psi max.
Elevation above water meter = 24 ft.
Urinals & WC have flushometers

IDAHO PLUMBING BOARD

Agenda Item No. 04

Plumbing Apprentice Course

PRESENTER: Porter House, Inc.

OBJECTIVE: Approve plumbing apprentice course.

ACTION: Informational

BACKGROUND: Porter House, Inc. is a school looking for the board's approval to start a plumbing apprentice program.

PROCEDURAL HISTORY:

ATTACHMENTS: Curriculum and Flyer

**SATA
WORK PROCESS SCHEDULE
PLUMBER
O*NET-SOC CODE: 47-2152.02 RAPIDS CODE: 0432**

This work process schedule is attached to and a part of the Apprenticeship Standards for the above identified occupation. This sequence of Related Classroom Instruction is competency based and will be offered as traditional classroom training or independent study, which may include electronic media.

1. TERM OF APPRENTICESHIP

The term of the occupation shall be four (4) years with an OJL attainment of 8000 hours supplemented by the required hours of related technical instruction.

2. RATIO OF APPRENTICES TO JOURNEYWORKERS

One (1) Apprentice to one (1) Journeyworker: one apprentice for the first skilled journeyworker employed, and one additional apprentice for each additional skilled journeyworker employed thereafter.

3. APPRENTICE WAGE SCHEDULE AND FRINGE BENEFITS

Apprentices shall be paid a progressively increasing schedule of wages and fringe benefits based on a percentage of the current journeyworker wage rate.

Term: 8000 Hours

- 1st 1000 hours = 50 percent of journeyworker's rate and fringe benefit payments
- 2nd 1000 hours = 55 percent of journeyworker's rate and fringe benefit payments
- 3rd 1000 hours = 60 percent of journeyworker's rate and fringe benefit payments
- 4th 1000 hours = 70 percent of journeyworker's rate and fringe benefit payments
- 5th 1000 hours = 75 percent of journeyworker's rate and fringe benefit payments
- 6th 1000 hours = 80 percent of journeyworker's rate and fringe benefit payments
- 7th 1000 hours = 85 percent of journeyworker's rate and fringe benefit payments
- 8th 1000 hours = 90 percent of journeyworker's rate and fringe benefit payments

4. SCHEDULE OF WORK EXPERIENCE (See attached Work Process Schedule)

Apprenticeship Committees may add to the work processes prior to submitting these Standards to the appropriate Registration Agency for approval.

5. SCHEDULE OF RELATED INSTRUCTION (See attached Related Classroom Instruction Outline)

Curricula modules are based on industry standardized applications of current construction practices. Modules are knowledge and skill based including a system for assessment. The assessment will include task objectives, procedures, review materials, and competency-based performance tests.

A21.1 - PLUMBER WORK PROCESS SCHEDULE**HOURS**

This instruction and experience shall include the following operations, but not necessarily in the listed sequence. Time spent on specific operations need not be continuous.

1. Installation of piping for waste (500 hrs.), soil (500 hrs.), sewerage (100 hrs.), vent (300 hrs.), and leader lines (100 hrs.) 1,500
2. Installation of piping for hot (500 hrs.) and cold (750 hrs.) water for domestic purposes..... 1,250
3. Installation of lead pipe, tin pipe, lead joints, sheet lead, solder work and lead burning 10
4. Assembly in position and connection of fixtures and appliances used in domestic heating (200 hrs.), gas fittings (400 hrs.), plumbing and drainage system (1,900 hrs.) 2,500
5. Welding and brazing connected with the trade 250
1. Maintenance and repairing of heating, plumbing, gas fittings, and refrigeration service 800
2. Operation, care, and use of all tools and equipment connected with the trade 525
3. Operation and maintenance of complete repair service and drain cleaning 540
9. Code, blueprint reading and sketching, and safety requirements 625

TOTAL HOURS**8000****A21.2 - PLUMBER RELATED CLASSROOM INSTRUCTION**

Note: Due to regional and local code differences and climate conditions, duration of instructional competencies/modules are suggested estimates only.

<u>Modules</u>	<u>Hours</u>
Applied Math	17.5
Backflow Preventers	20
Basic Rigging	20
OSHA 10	10
Business Math for Plumbers	10
Carbon Steel Pipe and Fittings	10
Cast Iron Pipe and Fittings	10
Codes	15
Compressed Air	10
Copper Pipe and Fittings	10
Corrosive-Resistant Waste Piping	12.5
Fixtures and Faucets	10
Fuel Gas Systems	20
Hydronic and Solar Heating Systems	15

Indirect and Special Waste	15
Installing and Testing DWV Piping	30
Installing and Testing Water Supply Piping	25
Installing Fixtures, Valves, and Faucets	15
Installing Roof, Floor, and Area Drains	7.5
Installing Water Heaters	7.5
Intermediate Math	15
Introduction to Blueprints	7.5
Introduction to Construction Math	15
Introduction to Drain, Waste, and Vent (DWV) Systems	10
Introduction to Hand Tools	10
Introduction to Plumbing Drawings	12.5
Introduction to Plumbing Math	10
Introduction to Power Tools	5
Introduction to the Plumbing Trade	5
Introduction to Water Distribution Systems	10
Locating Buried Water and Sewer Lines	12.5
Plastic Pipe and Fittings	10
Plumbing for Mobile Homes & Mobile Home Parks	10
Plumbing Tools	7.5
Private Waste Disposal Systems	12.5
Private Water Supply Systems	12.5
Reading Commercial Drawings	20
Servicing Fixtures, Valves, and Faucets	7.5
Servicing Piping Systems, Fixtures, and Appliances	20
Sewage and Sump Pumps	17.5
Sizing DWV and Storm Systems	15
Sizing Water Supply Piping	20
Swimming Pools and Hot Tubs	15
Types of Valves	5
Types of Venting	15
Water Pressure Boosters and Recirculating Systems	20
Water Supply Treatment	25
CPR/First Aid	5
TOTAL HOURS	640

*DOL apprenticeship program standards recommend 144 hours related instruction per level and/or year.

EXCELLENT SERVICE AT A FAIR PRICE

What we do:

- Staff Augmentation
- Consulting
- Technical Training
- Program Assessment
- Mentoring-Coaching
- Problem Solving

TECHNICAL SERVICES INCLUDES:

- **Staff Augmentation**
 - Radiological Engineering
 - Systems Engineering
 - Process Engineering
 - Nuclear Safety Support
 - Safety Inspectors
- **Radiological and Environmental Protection**
- **Technical Training**
 - ***Shelley Adult Training Academy***
 - Radiological Control Technician School
 - Industrial Technology School
 - Nuclear Technology School
 - Industrial Safety Training
 - Apprenticeship Programs for:
 - Carpentry
 - Electrician
 - HVAC
 - Ironworker
 - Millwright
 - Pipefitter
 - Plumber
 - Welder
- **Waste and Environmental Management**
- **Emergency Planning/Preparedness**
- **Environmental Restoration**
- **Decommissioning/Decontamination**
- **Nuclear Materials Management**

Our Mission Statement

The mission of Porter House Inc. is to provide superior consulting services to meet and exceed the needs of our customers.

- ◆ On Your Schedule
- ◆ Based on Current Industries Trends
- ◆ Highly Respected

IDAHO PLUMBING BOARD

Agenda Item No. 05

Jurisdictions Checking Licensure

PRESENTER: Garret Christoffersen, City of Idaho Falls

OBJECTIVE: Clarify who has authority to check licenses.

ACTION: Informational

BACKGROUND: January 2020 – The City of Idaho Falls interpretation of the statute is the city does not have the authority nor responsibility to check licenses on job sites within the city limits, only the state.

PROCEDURAL HISTORY:

ATTACHMENTS: No Documentation

IDAHO PLUMBING BOARD

Agenda Item No. 06

Definition of Bathroom Group

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Amend the definition of “Bathroom Group”

ACTION: Informational

BACKGROUND: January 2020 – Steve Bennett, College of Western Idaho, asked the Board to consider amending the definition of “Bathroom Group” in the 2017 Idaho Code as it makes horizontal wet venting a very questionable proposition; affecting the first part of horizontal wet venting where it says a bathroom group can be horizontally wet vented. Plumbing Program Manager John Nielsen agreed the definition of “Bathroom Group” could be more clearly defined; however, would not remove urinals. His interpretation of a horizontal wet vent in a bathroom group is a bathtub or tub/shower, toilet, and lavatory, beyond that additional fixtures can be added.

PROCEDURAL HISTORY:

ATTACHMENTS: Definition

2009 Definition

Bathroom Group – A group of fixtures *consisting* of a water closet, one or two lavatories, and either a bathtub, a combination bath/shower, or a shower and may include a urinal or bidet and an emergency floor drain.

2015 Definition

Bathroom Group. *Any combination* of fixtures, not to exceed one water closet, two lavatories, either one bathtub or one combination bath/shower, and one shower, and may include a bidet and an emergency floor drain.

IDAHO PLUMBING BOARD

Agenda Item No. 07

Proposed Code Changes--Water Heaters

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Change code to restrict appliances from being placed in front of water heaters.

ACTION: Informational

BACKGROUND: January 2020 – The Plumbing Program Manager has spoken with Dan Ediger, City of Boise Plumbing Inspection Supervisor. The Uniform Plumbing Code is vague when it comes to allowing appliances to be placed in front of water heaters. At the March 2020 Board meeting, Mr. Ediger would like to discuss the possibility of a code change; restricting appliances from being in front of water heaters.

PROCEDURAL HISTORY:

ATTACHMENTS: Documentation

504.3 Clearance. The clearance requirements for water heaters shall comply with Section 504.3.1 or Section 504.3.2.

504.3.1 Listed Water Heaters. The clearances shall not be such as to interfere with combustion air, draft hood clearance and relief, and accessibility for servicing. Listed water heaters shall be installed in accordance with their listings and the manufacturer's installation instructions.

504.3.2 Unlisted Water Heaters. Unlisted water heaters shall be installed with a clearance of 12 inches (305 mm) on all sides and rear. Combustible floors under unlisted water heaters shall be protected in an approved manner. [NFPA 54:10.28.2.2]

IDAHO PLUMBING BOARD

Agenda Item No. 08

Program Manager Report

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Provide an update on the Plumbing Program's current activities.

ACTION: Informational

BACKGROUND: This topic is addressed at all regularly scheduled Idaho Plumbing Board meetings.

The topic *Clarification of Apprentice Hours* to be addressed under the Plumbing Program Manager report as well.

**PROCEDURAL
HISTORY:**
