IDAHO PLUMBING BOARD VIDEOCONFERENCE MEETING

MAY 20, 2021

IDAHO PLUMBING BOARD

Agenda Item No. 01

Agenda and Minutes

PRESENTER: Matt Gardner, Chairman

OBJECTIVE: Approve the Idaho Plumbing Board's May 20, 2021 Agenda and Minutes for the February 24, 2021 (Special) and March 18, 2021 Meetings.

ACTION: Consent

BACKGROUND:

**PROCEDURAL
HISTORY:**

ATTACHMENTS: Tentative Agenda and Draft Minutes

TENTATIVE AGENDA

NOTICE OF PUBLIC MEETING

IDAHO PLUMBING BOARD MEETING

**Division of Building Safety
1090 East Watertower Street, Suite 150, Meridian
1250 Ironwood Drive, Suite 220, Coeur d'Alene
155 North Maple Street, Blackfoot**

**Teleconference – 877-820-7831--529619
dbs.idaho.gov – (208) 332-7137**

Thursday, May 20, 2021

**9:30 a.m. – 11:30 a.m. (MDT)
8:30 a.m. – 10:30 a.m. (PDT)**

This is a public meeting. Seating capacity is limited due to the social distancing protocols implemented during the COVID-19 Pandemic. The public is encouraged to attend telephonically with the information provided above.

-
- 9:30 a.m. CALL TO ORDER** – Matt Gardner, Chairman
- Roll Call & Introductions
 - Open Forum
 - City and County Concerns

CONSENT AGENDA

1. Approval of the May 20, 2021 Agenda, February 24, 2021 (Special) and March 18, 2021 Meeting Minutes – Matt Gardner

INFORMATIONAL AGENDA

2. Zero Based Regulation – John Nielsen and Tim Frost, Regulatory Affairs Liaison, DOPL
3. Code Changes – John Nielsen
4. Program Manager Report – John Nielsen
 - NOV Activity Report
 - Journeyman First Exam Report
5. Administrator Report – Ron Whitney, Administrator
 - Financial Report

11:30 a.m. ADJOURN

All times, other than beginning, are approximate and scheduled according to Mountain Daylight Time (MDT), unless otherwise noted. Agenda items may shift depending on the Idaho Plumbing Board's preference. 05/05/2021r

**IDAHO PLUMBING BOARD
SPECIAL TELECONFERENCE/
VIDEOCONFERENCE MEETING**

Wednesday – February 24, 2021 – 9:30 a.m. (MST)

**Division of Building Safety
1090 East Watertower Street, Suite 150, Meridian
1250 Ironwood Drive, Suite 220, Coeur d'Alene
155 North Maple Street, Blackfoot**

***DRAFT MINUTES OF THE FEBRUARY 24, 2021 SPECIAL MEETING**

NOTE: The following report is not a verbatim transcript of the discussions at the meeting; however, is intended to record the significant features of those discussions.

Chairman Matt Gardner called the special meeting to order at 9:31 a.m. (MST)

Board Members Present:

Matt Gardner, Chairman
Gilbert Pond, Vice-Chairman
Rick Garrett
John Kierce-Teleconference
Bob King-Teleconference

DBS Staff Members Present:

Ron Whitney, Administrator
Patrick Grace, Deputy Administrator
Spencer Holm, Deputy Attorney General-Teleconference
John Nielsen, Plumbing Program Manager
Larry Jeffres, Regional Manager, Region 1
Adam Bowcutt, Regional Manager, Region 3
Renee Bryant, Administrative Assistant 2

♦ **Authorize Notice of Adoption of Temporary Rule Regarding IDAPA 24.39.20**

In the past, fee rules have not been reauthorized by the legislature. Therefore, in preparation of this possibly happening again, the Governor's office has asked all boards with rulemaking authority to promulgate them on a temporary basis. The rules would then be in place until the 2022 legislative session. The substance of the rules have not changed since being submitted to the 2021 legislature and would become effective upon sine die.

MOTION: Rick Garrett made a motion that pursuant to Section 67-5226, Idaho Code, the Governor has found that temporary adoption of this rule is appropriate to protect the public health, safety, and welfare of the citizens of Idaho and confer a benefit on its citizens. These rules implement the duly enacted laws of the state of Idaho, provide citizens with the detailed rules and standards for complying with those laws, and assist in the orderly execution and enforcement of those laws. The expiration of these rules without due consideration and processes would undermine the public health, safety and welfare of the citizens of Idaho and deprive them of the benefit intended by these rules. The Governor has also found that the fees or charges being imposed or increased are justified and necessary to avoid immediate danger to the agency/department/board/commission's budget, to the state budget, to necessary state functions and services, and to avoid immediate danger of a potential violation of Idaho's constitutional requirement that it balance its budget. Therefore, we are adopting IDAPA 24.39.20 to be effective upon sine die of the 2021 session of the Idaho Legislature. The approval is conditional and will only become effective if the rules are not otherwise approved or rejected by the Legislature and/or

not extended pursuant to the Idaho Administrative Procedure Act, including sections 67-5291 and 67-5292, Idaho Code. Gilbert Pond seconded. All in favor, motion carried.

♦ **Adjournment**

Chairman Gardner adjourned the meeting at 9:39 a.m. (MST)

MATT GARDNER, CHAIRMAN
IDAHO PLUMBING BOARD

IDAHO PLUMBING BOARD MEETING

Thursday – March 18, 2021 – 9:30 a.m. (MDT)

Division of Building Safety
1090 East Watertower Street, Suite 150, Meridian
1250 Ironwood Drive, Suite 220, Coeur d'Alene
155 North Maple Street, Blackfoot

*DRAFT MINUTES OF THE MARCH 18, 2021 MEETING

NOTE: The following report is not intended to be a verbatim transcript of the discussions at the meeting but to record the significant features of those discussions.

Chairman Matt Gardner called the meeting to order at 9:32 a.m. (MDT)

Board Members Present:

Matt Gardner, Chairman
Gilbert Pond, Vice-Chairman
John Kierce
Rick Garrett
Bob King

DBS Staff Members Present:

Ron Whitney, Administrator
Spencer Holm, Deputy Attorney General, Telecon.
John Nielsen, Plumbing Program Manager
Chuck Knapp, Regional Supervisor, Region 1
Josh Nyman, Regional Supervisor, Region 3
Renee Bryant, Administrative Assistant 2

◆ **Open Forum**

There were no new concerns to address under open forum.

City/County Concerns – There were no new city/county concerns to address under open forum.

◆ **Approval of the March 18, 2021 Agenda and January 21, 2021 Meeting Minutes**

Action Agenda Item 02, *Administrative Appeal Hearing--R. L. Jacobs Plumbing, Inc., PLB2101-0010*, was resolved prior to the meeting.

MOTION: Gilbert Pond made a motion to approve the agenda as amended and meeting minutes as presented. John Kierce seconded. All in favor, motion carried.

◆ **Code Changes**

The following proposed changes to IDAPA 24.39.20.301 *Adoption and Incorporation by Reference of the Idaho State Plumbing Code (ISPC)* were provided: 1) Add--a. Section 204 *Definitions-Bathroom Group*, 2) Delete--12. Section 507.3 *Seismic Provisions*; and 3) Add--14. Section 507.26 *Accessibility for Service and Replacement*.

It was questioned why specific appliances were not included in Section 507.26 *Accessibility for Service and Replacement*. Although the language could be more specific, it was determined the new verbiage does not limit the type of appliances that should not be positioned in front of other installed equipment.

Chairman Matt Gardner and Plumbing Program Manager John Nielsen agreed this topic should be addressed at the May 2021 meeting as an informational item.

ACTION: The topic *Code Changes* will be added as an informational item on the May 20, 2021 board meeting agenda.

◆ **Specialty Pumps and Requirements**

Plumbing Program Manager Nielsen explained the requirements to hold a water pump specialty license. Until 2020, when Covid-19 occurred, the Idaho Groundwater Association held an annual convention, which the Division accepted as 12 hours continuing education units (CEUs).

Legrand Baker, Pump Service Idaho, and previous member on the Idaho Groundwater Association, has been fielding licensing and testing questions from the pump industry. When asked, there is only one CEU provider in Washington that provides a pump course. Mr. Baker stated he would like to see courses and tests more applicable to the trade.

The Chairman asked, and Mr. Baker agreed, to work on creating a specialty apprenticeship program for the pump industry; however, asked for cooperation by both the plumbing and electrical trades. It was suggested to meet with suppliers and manufacturers to get them involved in creating a curriculum. Also, contact the U.S. Department of Labor on its apprenticeship program to assist with grants and funding. Mr. Baker has spoken to the manufacturers and suppliers and they are on board. Board Member Gilbert Pond offered to provide assistance when available.

◆ **Practical Exam**

The Plumbing Program Manager sent an email and board packet to the schools regarding the Board's decision for them to provide the practical exam. Concerns arose that some schools do not have the proper equipment or facility. It was suggested using schools or JATC that currently offer a practical. The Chairman explained the background behind the Board's decision, which was not to burden the schools but rather for uniformity. For further clarification, Chairman Matt Gardner asked, and Administrator Ron Whitney agreed, for DBS to provide a letter to the plumbing, electrical and HVAC trade. In addition, the Chairman requested the Plumbing Program Manager provide him with a contact list of all the schools.

ACTION: The Division will send a letter to the plumbing, electrical and HVAC trades; clarifying the schools will need to provide the practical exam.

ACTION: The Plumbing Program Manager will provide a contact list of all the schools to the Chairman.

◆ **Permit Fees**

There seems to be confusion with the current fee schedule between inspectors, contractors and staff on how to calculate the cost of permits. The HVAC program has gone back to a

base permit fee and counting fixtures. For existing one- and two-family dwelling units, to include townhouses, the Plumbing Program Manager would like the Board to consider changing its fee schedule to a base fee and fixture count. All new dwelling types would stay at the square footage fees. When asked about apartment complexes, realistically they fall under the commercial fee structure; which would remain the same. City of Boise officials explained their permitting processes, and Chairman Gardner asked how the Electrical Board permits its apartment complexes.

Board Member Gilbert Pond stated residential repairs and/or additions need to be addressed, and square footage is great for new residential construction. In addition, Board Member Pond would like the Division to meet with other Idaho cities and review their permit processes for possible consistency throughout the state of Idaho.

Plumbing Program Manager Nielsen agreed to bring to the May 2021 meeting a revised fee schedule, as well as a comparison of the costs, base/fixture vs. commercial, for a multi-family dwelling.

ACTION: The Plumbing Program Manager will bring cost comparisons to the May 2021 board meeting.

ACTION: The topic *Permit Fees* will be added as an informational item on the May 20, 2021 board meeting agenda.

◆ **Program Manager Report**

NOV Activity Report – The Division’s Compliance Officer averages 20 to 40 license checks weekly, as well as investigates issues found online and brought forth by inspectors.

Journeyman First Exam Report – There were no issues with the report.

Permit Fees (Cont’d) – When asked earlier, electrical permits for apartment complexes are processed based on the multi-family dwelling section of the electrical permit application. Each building is issued a permit, with cross-referencing of all units within the building.

Senate Bills 1024, 1026 and 1056 (previously 1025) – The bills create the new Division of Occupational and Professional Licenses (DOPL); bringing boards from various agencies, as well as DBS, under one organization. Currently, each bill is at its third reading at the 2021 legislature.

House Bill 254 – Amends Section 39-4109 to provide technical corrections and to remove provisions regarding certain excluded codes, such as electrical codes, mechanical codes, and plumbing codes. This bill also amends Section 39-4116 to provide that local governments shall adopt certain codes to make technical corrections. The bill is still in general orders.

Senate Bill 1083 – Amends existing law to provide for a more streamlined licensure by endorsement process for military members, veterans, and spouses. In addition, maintains the ability to benefit from existing interstate compacts for licensure.

Senate Bill 1084 – Amends existing law regarding sunrise review to provide for the addition of sunset review. This responsibility will be incorporated into the duties of the existing Sunrise Review Committee.

USDOL Davis-Bacon Requirements – Any company with apprentices working on a Davis-Bacon job must pay Davis-Bacon wages. Information on *What is Apprenticeship Idaho* is available on the Division's website.

Inspections – The following plumbing inspections have been performed in 2021: January--2,540; February--2,507; and March (through the 17th)--2,110.

♦ **Administrator Report**

Covid – There have been additional cases of Covid reported within the agency. The doors to the three DBS offices continue to be closed to the public, except for testers.

Permit Activity – Between 2019 and 2020, permits were up by ten percent. In January and February 2021, permits were up 18 percent over last year, for a total increase of 28% in activity from 2019.

DOPL – There are several Zoom meetings scheduled in March and April 2021 for employees to meet with DOPL Administrator Russ Barron to explain their positions and ask questions. It is estimated the move to the Chinden Campus will be February 2022.

Financial Report – Rather than quarterly, the Financial report will be provided to the Board monthly.

♦ **Adjournment**

MOTION: John Kierce made a motion to adjourn the meeting

Chairman Gardner adjourned the meeting at 11:30 a.m. (MDT)

IDAHO PLUMBING BOARD

Agenda Item No. 02

Zero Based Regulation

PRESENTER: John Nielsen, Plumbing Program Manager and Tim Frost, Legislative and Regulatory Affairs Manager, **DOPL**

OBJECTIVE: Inform the board and industry how the rule making process has changed and what will be expected, based on Zero Based Regulation, to have the plumbing rules ready to be presented to the legislature in 2023.

ACTION: Informational

BACKGROUND:

**PROCEDURAL
HISTORY:**

ATTACHMENTS: Zero-Based Regulation Prospective Analysis Agency Guide and Form

**Zero-Based Regulation
Prospective Analysis
Agency Guide**

The guide attempts to answer many of the questions that agencies may have when completing the Prospective Analysis form outlined in Executive Order 2020-01.

1. What is the specific legal authority for this proposed rule?

Per article III, section 29 of the state constitution, rules must be written to interpret, prescribe, implement, or enforce a statute. Therefore, rules must emanate from a statute and must be consistent with legislative intent.

In answering, this first question, please include a direct link to the statute that the rule is intended to interpret, prescribe, implement, or enforce.

Also, please identify if the rule is “mandatory” or “discretionary” using the following definitions:

Term	Definition
Mandatory	A state statute explicitly requires the agency to make this particular rule section.
Discretionary	The rule falls under the general rulemaking authority of the agency.

For example, see Section [67-5309](#) (abstracted below):

67-5309. RULES OF THE DIVISION OF HUMAN RESOURCES AND THE PERSONNEL COMMISSION. The administrator of the division of human resources shall have the power and authority to adopt, amend, or rescind such rules as may be necessary for proper administration of this chapter. Such rules **shall** include:

(b) A rule describing the relevant labor markets and benchmark job classifications used in the administrator’s salary surveys.

If the Division of Human Resources promulgated a rule specific to describing the relevant labor markets as outlined in 67-5309(b), it would be considered “mandatory” because of the use of the word “shall.”

If, however, the Division of Human Resources promulgated a rule that was not included in the list under the word “shall,” it would be considered discretionary as the agency is leaning on the general rulemaking authority specified in this clause: “rules as may be necessary for proper administration of this chapter.”

2. Define the specific problem that the proposed rule is attempting to solve? Can the problem be addressed by non-regulatory measures?

Each agency shall identify the problem that it intends to address (including, where applicable, the failures of private markets or public institutions that warrant new regulatory action) as well as assess the significance of that problem.

In answering this question, here are some general guidelines to follow:

a. Do:

- i. Explicitly and clearly define the problem that this specific rule is attempting to solve.
 1. Is there a market failure? An over-riding social need?

- ii. Present empirical evidence that the problem exists, that it is substantiated, and that it is widespread.

b. Don't:

- i. Simply note the general rulemaking authority in statute.
- ii. List an anecdote or two.
- iii. Make a vague allusion to the need to regulate the profession generally.

3. How have other jurisdictions approached the problem this proposed rule intends to address?

Start with an exploration of related federal and state laws. For other states, we are focused on those that surround Idaho, and have also included the two other least-regulated states for comparison: Alaska and South Dakota.

In reviewing other state laws, agencies are encouraged to contact their counterparts in the targeted states, leverage the assets of their national associations, or simply review the laws of the other states.

If any federal or state law is less stringent than Idaho, there is a rebuttable assumption that Idaho's more stringent restrictions are unnecessary.

4. What evidence is there that the rule, as proposed, will solve the problem?

Each agency shall base its decisions on the best reasonably obtainable scientific, technical, economic, and other information concerning the need for, and consequences of, the intended regulation. In other words, regulation requires evidence, not just assertions. In answering this question, here are some general guidelines to follow:

a. Do:

- i. Present empirical evidence that the rule has proven effective in other jurisdictions or in Idaho.
- ii. Present a clear theory of cause and effect between the rule and the desired outcome.

b. Don't:

- i. List an anecdote or two.
- ii. Simply state that the rule was previously on the books and is merely being modified.

5. What is the anticipated impact of the proposed rule on various stakeholders? Include how you will involve stakeholders in the rulemaking process?

Please answer these questions in line with how they would be answered on the PARF or the Notices that are published in the Idaho Administrative Bulletin.

6. What cumulative regulatory volume does this proposed rule add?

In calculating the net word count change, consider the net change of all the proposed additions minus the proposed deletions.

In calculating the net word restrictive word count change, consider the net change of all the proposed restriction additions minus the proposed restriction deletions. "Restrictive words" includes the following:

- Shall
- Must
- May Not
- Prohibited
- Required

**Zero-Based Regulation
Prospective Analysis**

- **Fill out entire form to the best of your ability, unless submitting a Notice to Negotiate only fill out 1, 2, and 5**

<input type="text"/>	<input type="text"/>

2. Define the specific problem that the proposed rule is attempting to solve? Can the problem be addressed by non-regulatory measures?

3. How have other jurisdictions approached the problem this proposed rule intends to address?

a. Is this proposed rule related to any existing federal law?

Federal citation	Summary of Law (include direct link)	How is the proposed Idaho rule more stringent? (if applicable)

b. How does this proposed rule compare to other state laws?

State	Summary of Law (include direct link)	How is the proposed Idaho rule more stringent? (if applicable)
Washington		
Oregon		
Nevada		
Utah		
Wyoming		
Montana		
Alaska		
South Dakota		

c. If the Idaho proposed rule has a more stringent requirement than the federal government or the reviewed states, describe the evidence base or unique circumstances that justifies the enhanced requirement:

--

4. What evidence is there that the rule, as proposed, will solve the problem?

5. What is the anticipated impact of the proposed rule on various stakeholders? Include how you will involve stakeholders in the negotiated rulemaking process?

Category	Potential Impact
Fiscal impact to the state General Fund, any dedicated fund, or federal fund	
Impact to Idaho businesses, with special consideration for small businesses	
Impact to any local government in Idaho	

6. What cumulative regulatory volume does this proposed rule add?

Category	Impact
Net change in word count	
Net change in restrictive word count	

IDAHO PLUMBING BOARD

Agenda Item No. 03

Code Changes

PRESENTER: John Nielsen, Plumbing Program Manager

OBJECTIVE: Propose adoption of the 2021 Uniform Plumbing Code with amendments based on the governor's Zero-Based Regulations per Executive Order 2020-01, which includes the previously discussed code changes described below.

ACTION: Informational

BACKGROUND: To amend the Idaho State Plumbing Code, Sections 204.0 Bathroom Group, 507.2 Seismic Provisions (currently deleted), and 507.26 Accessibility for Service and Replacement.

These proposed changes were brought to the board in an effort to clear up some confusion pertaining to horizontal wet venting, to make water heater installations safer, ensure that water heaters are accessible, and can be serviced or replaced without needing to remove such things as appliances, piping or ducts.

PROCEDURAL HISTORY:

ATTACHMENTS: Proposed rule changes

03. Home Owners. Home owners making plumbing installations on their own premises under the provisions of Section 54-2602, Idaho Code, must secure a plumbing permit by making application to the Division as provided by Section 54-2620, Idaho Code. ()

04. Commercial, Industrial and Others. The application form must be properly completed, and returned to the Division together with a verified copy of bid acceptance and the proper permit fee as hereinafter provided. Persons, companies, firms, associations, or corporations making plumbing installations, other than on their own property, must be licensed as a contractor by the state of Idaho as provided by Section 54-2610, Idaho Code. ()

05. Expiration of Permit. Every permit expires and becomes null and void if the work authorized by such permit is not commenced within one hundred twenty (120) days from the date of permit issuance, or if work authorized by such permit is suspended or abandoned at any time after work is commenced for a period of one hundred twenty (120) days. Before such work can be recommenced, a new permit must first be obtained, and the fee is one-half (1/2) the amount of a new permit for such work; provided, no changes have been made, or will be made in the original plans and specifications for such work; and provided further, that such suspension or abandonment has not exceeded one (1) year. All plumbing fixtures must be listed on the application for permit. ()

06. Transferring a Permit. A plumbing permit may be transferred to another eligible party if such party provides to the Division written authorization signed and notarized by the original permit holder consenting to the transfer itself, as well as assignment of all responsibilities and conditions incorporated into the original permit issuance. A permit may be transferred to the owner of the property on which the plumbing work is to be performed and for which the permit was issued, or such owner's designated legal agent in cases where the property owner has terminated their legal relationship with the plumbing contractor who originally obtained the permit. An administrative fee in the amount of forty-five dollars (\$45) for the transfer of a permit will be assessed by the Division. ()

07. Refunds of Permits. ()

a. The Administrator may authorize a refund of the entire permit fee paid when no work has been performed related to the installation of plumbing work covered by a permit issued by the Division. A lesser amount up to fifty percent (50%) of the permit fee amount may be refunded if work has commenced and the project is less than fifty percent (50%) complete as determined by the Division; and ()

b. The Administrator will not authorize a refund of any permit fee paid except upon written application for such filed by the original permit holder or the property owner's representative not less than one hundred eighty (180) days after the date the permit was issued. ()

102. PERMIT FEE SCHEDULE.

01. New Residential. ~~Includes all buildings with plumbing systems being constructed on each property.~~ The following fees shall apply to new residential, one and two-family dwellings; ~~construction:~~

One-Family Dwelling		
Square Feet		Fee
Up to 1,500	-	\$130
1,501 to 2,500	-	\$195
2,501 to 3,500	-	\$260
3,501 to 4,500	-	\$325

Over 4,500	-	\$325 plus \$65 for each additional 1,000 square feet or portion thereof
------------	---	--

Two or Multi-Family Dwelling	
Dwelling	Fee
Two-family dwelling	- \$260
Multi-family dwelling	- 130 per Building plus \$65 per Unit

()

02. Miscellaneous. The following residential fees shall apply for the types of permits listed:

Type	Fee
Existing residential Shops, remodels, additions, gray water, hydronic, fuel gas piping systems	\$ 130 65 per inspection plus \$10 for each additional fixture
Requested inspection	\$65 per hour or portion thereof plus costs of out-of-state travel
Technical service	\$65 per hour or portion thereof
Plan check	
Mobile home, manufactured home, or recreational vehicle park	Calculated under Subsection 102.03 of these rules
Sewer or water service line—nonresidential (new construction, installations, and replacements)	
Reclaimed water system	
Lawn sprinkler system—nonresidential	
Lawn sprinkler system—residential	\$65 per inspection
Sewer or water service line—residential (new construction, installations, and replacements)	
Mobile or manufactured home	
Modular building	
<u>Water heater replacement</u>	
Multipurpose residential fire sprinkler	\$65 or \$4 per fire sprinkler head, whichever is greater
Gray water system	\$130 per inspection

()

03. Other Installations Including Industrial and Commercial. The fees listed in this Subsection shall apply to plumbing installations in this schedule that refer to this Subsection and installations not specifically mentioned elsewhere in this schedule. The plumbing system cost shall be the cost to the owner of labor charges and other costs incurred to complete the installation of plumbing equipment and materials installed as part of the plumbing system. All fees calculated under this Subsection must be based on the total plumbing system cost, which must be listed on the permit.

Plumbing System Cost	Fee
Up to \$10,000	- \$60 plus 2% of plumbing system cost
\$10,000 to \$100,000	- \$260 plus 1% of plumbing system cost exceeding \$10,000
Over \$100,000	- \$1,160 plus .5% of plumbing system cost exceeding \$100,000

()

04. Additional Fees. A fee of sixty-five dollars (\$65) per hour or portion thereof shall apply to trips to inspect when the permit holder has given notice to the Division of Building Safety that the work is ready for inspection and it is not;

()

a. If the permit holder has not accurately identified the work location; ()

b. If the inspector cannot gain access to make the inspection; ()

c. Corrections required by the inspector as a result of the permit holder improperly responding to a corrective notice. ()

d. When corrections have not been made in the prescribed time, unless an extension has been requested and granted. ()

05. No Permit. Failure to purchase a permit before commencing work may result in the assessment of a double fee. ()

103. REQUIRED INSPECTIONS.

01. Ground Work Inspection Tags. For ground work to be covered, with acceptance by the inspector. A tag will be attached in a prominent location, preferably to a vertical riser. ()

02. Rough-In Inspection Tags. For rough-in, prior to covering or concealing, with acceptance by the inspector. A tag will be placed in a prominent location. ()

03. Final Inspection Tags. For final, attached when the plumbing as specified on the permit is complete and conforms to the requirements of the code. ()

04. Inspection Tags for Unacceptable Plumbing. Correction Notice - when attached to the plumbing system means that the plumbing is not acceptable and that corrections are required. A reinspection and reinspection fee for such installations shall be required in accordance with this chapter. ()

104. -- 199. (RESERVED)
